1.4. Background

- **Overview of the Health and Human Services Commission (HHSC)**

Since 1991, the Texas Health and Human Services Commission (HHSC) has overseen and coordinated the planning and delivery of health and human service programs in Texas. HHSC is established in accordance with Texas Government Code Chapter 531 and is responsible for the oversight of all Texas health and human service agencies (HHS Agencies). HHSC's chief executive officer is Chris Traylor, Executive Commissioner of Health and Human Services.

As a result of the consolidation pursuant to the 78th Texas Legislature, Regular Session (2003), House Bill 2292, some of the contracting and procurement activities for the HHS Agencies have been assigned to the Procurement and Contracting Services (PCS) Division of HHSC. As such, PCS will administer the initial stages of the procurement process, including enrollment announcement and publication, handling of communications from the applicant, as well as managing the receipt and handling of valid applications.

- **Project Overview**

In December 2014, the Sunset Commission issued the recommendation that HHSC consolidate the women's health care programs in order to improve service and efficiency for clients and providers. This included the recommendation to consolidate the existing Texas Women's Health Program (TWHP) at HHSC and the Expanded Primary Health Care (EPHC) Program at DSHS into one program and division at HHSC. On July 1, 2016, HHSC will consolidate the TWHP and EPHC into the Healthy Texas Women (HTW) Program. The HTW Program is comprised of two components, one that is within the scope of this open enrollment and one that is not.

The first component is the HTW Fee-for-Service Program, **which is not within the scope of this open enrollment.** The HTW Fee-for-Service Program is patterned after the current Texas Women's Health Program. As such, any qualified Medicaid provider in Texas, who has completed the TWHP/HTW certification process, may be reimbursed for services in accordance with the "Healthy Texas Women Program Reimbursable Procedure Codes", which are contained in Appendix A for informational purposes only. In the HTW Fee-for-Service Program, client eligibility is determined by HHSC and fee-for-service claims will be processed by the Texas Medicaid Healthcare Partnership.

Services in the HTW Fee-for-Service Program will be preventive health, medical, counseling, and educational services that assist low-income Texan women to manage their fertility and achieve optimal reproductive and general health and include, but are not limited to, the following services: pelvic examinations, contraceptive services (pregnancy prevention and birth spacing), pregnancy testing and counseling, sexually transmitted infection services, breast and cervical cancer screenings and diagnostic services, immunizations, cervical dysplasia treatment, and other preventive services.

The second component of the HTW Program, **which is within the scope of this open enrollment**, is the cost reimbursement component, which is discussed further in Section 2 of this open enrollment. The services provided under the cost reimbursement component of the HTW Program do not include direct client care services provided through the HTW Fee-for-Service Program; however, the services being procured in this open enrollment are directly related, and limited, to the clients served through the HTW Fee-for-Service Program and women that are deemed presumptively eligible for the HTW Fee-for-Service Program.

The women eligible to participate in the HTW Fee-for-Service Program include women who are:

- Age 15 ≤ 44;
- At or below 200% of the Federal Poverty Level (FPL);
- U.S. citizens/legal immigrants; and
- Not Pregnant.

Eligibility determinations are made through the Texas Integrated Eligibility Redesign System (TIERS).

1.5. Eligible Applicants

To be eligible to apply for a contract and receive an award through this open enrollment, Applicants must be:

- free to participate in state contracts and not be debarred by the Texas Comptroller of Public Accounts:
http://comptroller.texas.gov/procurement/prog/vendor_performance/debarred/
- free to participate in federal contracts with the System of Award Management (SAM). Applicant is ineligible to apply for funds under this OE if currently debarred, suspended, or otherwise excluded or ineligible for participation in Federal or State assistance programs. Search the federal excluded list at the following website:
<https://www.sam.gov/portal/public/SAM;>
- determined to be "Active" by the Texas Comptroller of Public Accounts:
[http://www.cpa.state.tx.us/taxinfo/coasintr.html;](http://www.cpa.state.tx.us/taxinfo/coasintr.html)
- located in Texas and have a Texas business address; and
- a current Texas Women's Health Program provider or be eligible to provide Texas Women's Health Program services or be an Applicant that:

- a. does not perform or Promote Elective Abortions;
- b. is not an Affiliate of an entity or individual that performs or Promotes Elective Abortions;
- c. meets these requirements throughout the procurement process and throughout the term of the awarded contract; and
- d. is a Medicaid provider in accordance with Title 1, Texas Administrative Code, Part 15, Chapter 352, or must have submitted a Texas Medicaid Provider Enrollment Application.

NOTE: To demonstrate eligibility to respond to this open enrollment, Applicant must include the Texas Provider Identifier (TPI) and the National Provider Identifier (NPI) for each clinic site that will provide HTW Program services on Form K-1. If a clinic site does not have a TPI or NPI, the Applicant must provide the date the Texas Medicaid Provider Enrollment Application was submitted on Form K-1. Applicants can learn more about the Texas Medicaid Provider Enrollment process by referring to the TMHP website.

1.6. Strategic Elements

- **Contract Type and Term**

HHSC will award one or more contracts for the HTW cost reimbursement component of the HTW Program. The initial resulting contract term will be July 1, 2016 and will terminate on August 31, 2017. HHSC reserves the option to amend the term of the resulting contract for up to two additional two-year terms, or as necessary to complete the mission of the procurement.

- **Contract Elements**

The term "contract" means the contract awarded as a result of this open enrollment, which includes the signature document and all attachments thereto, HHSC's Uniform Terms and Conditions Version 2.12 (UTCs), the HHSC Special Conditions, this open enrollment, and the successful Applicants' respective proposals. The UTCs are contained in Appendix B and the HHSC Special Conditions are contained in Appendix C. Additionally, a contract resulting from this open enrollment will be subject to HHSC's Data Use Agreement (DUA), which will be incorporated into the contract.

HHSC reserves the right to negotiate additional contract terms and conditions. Applicants are responsible for reviewing the UTCs and HHSC Special Conditions and noting any exceptions on the Applicant Information and Disclosures form.

1.7. External Factors

External factors may affect the project, including budgetary and resource constraints. Any contract resulting from the open enrollment is subject to the availability of state. As of the issuance of this open enrollment, HHSC anticipates that budgeted funds will be available to reasonably fulfill the project requirements. If, however, funds are not available, HHSC

reserves the right to withdraw the open enrollment or terminate the resulting contract without penalty.

1.8. Legal and Regulatory Constraints

1.8.1 Delegation of Authority

State and federal laws generally limit HHSC's ability to delegate certain decisions and functions to a contractor, including but not limited to: (1) policy-making authority; and (2) final decision-making authority on the acceptance or rejection of contracted services.

1.8.2 Conflicts of Interest

A conflict of interest is a set of facts or circumstances in which either an Applicant or anyone acting on its behalf in connection with this procurement has past, present or currently planned personal, professional or financial interests or obligations that, in HHSC's determination, would actually or apparently conflict or interfere with the Applicant's contractual obligations to HHSC. A conflict of interest would include circumstances in which a party's personal, professional or financial interests or obligations may directly or indirectly:

- make it difficult or impossible to fulfill its contractual obligations to HHSC in a manner that is consistent with the best interests of the State of Texas;
- impair, diminish or interfere with that party's ability to render impartial or objective assistance or advice to HHSC; or
- provide the party with an unfair competitive advantage in future HHSC procurements.

Neither the Applicant nor any other person or entity acting on its behalf, including but not limited to subcontractors, employees, agents and representatives, may have a conflict of interest with respect to this procurement. Before submitting a proposal, Applicants should carefully review the UTC's and HHSC Special Conditions for additional information concerning conflicts of interests.

An Applicant must certify that it does not have personal or business interests that present a conflict of interest with respect to the open enrollment and resulting contract (see Required Certifications Form). Additionally, if applicable, the Applicant must disclose all potential conflicts of interest. The Applicant must describe the measures it will take to ensure that there will be no actual conflict of interest and that its fairness, independence and objectivity will be maintained (see the Respondent Information and Disclosure Form). HHSC will determine to what extent, if any, a potential conflict of interest can be mitigated and managed during the term of the contract. **Failure to identify potential conflicts of interest may result in HHSC's disqualification of a proposal or termination of the contract.**

1.8.3 Former Employees of a State Agency

Applicants must comply with Texas laws and regulations relating to the hiring of former state employees (see e.g., Texas Government Code [§572.054](#)). Such “revolving door” provisions generally restrict former agency heads from communicating with or appearing before the agency on certain matters for two years after leaving the agency. The revolving door provisions also restrict some former employees from representing clients on matters that the employee participated in during state service or matters that were in the employees’ official responsibility.

As a result of such laws and regulations, an Applicant must certify that it has complied with all applicable laws and regulations regarding former state employees (see the Required Certifications form). Furthermore, an Applicant must disclose any relevant past state employment of the Applicant’s or its subcontractors’ employees and agents in the Respondent Information and Disclosure form.

1.8.4 Interpretive Conventions

Whenever the terms “shall,” “must,” or “is required” are used in this open enrollment in conjunction with a specification or performance requirement, the specification or requirement is mandatory.

Whenever the terms “can,” “may,” or “should” are used in this open enrollment in conjunction with a specification or performance requirement, the specification or performance requirement is a desirable, but not mandatory, requirement.

1.9. HHSC Amendments and Announcements Regarding this Open Enrollment

HHSC will post all official communication regarding this open enrollment to the Electronic State Business Daily (ESBD). HHSC reserves the right to revise the open enrollment at any time. Any changes, amendments, or clarifications will be made in the form of written responses to Applicant questions, amendments, or addenda issued by HHSC on the ESBD. Applicants should check the website frequently for notice of matters affecting the open enrollment. To access the website, go to the [ESBD search](#) page and enter a search for this procurement.

1.10. Amendments and Announcements Regarding this Open Enrollment

HHSC will post all official communication regarding this open enrollment on the [Electronic State Business Daily](#) (ESBD). HHSC reserves the right to revise the open enrollment at any time and to make unilateral amendments to correct grammar, organization and clerical errors. It is the responsibility of each Applicant to comply with any changes, amendments, or clarifications posted to the [ESBD](#). Applicant must check the [ESBD](#) frequently for changes and notices of matters affecting this open enrollment.

Applicant's failure to periodically check the ESBD will in no way release the Applicant from "addenda or additional information" resulting in additional costs to meet the requirements of the open enrollment.

All questions and comments regarding this open enrollment must be sent to the HHSC Point of Contact identified in subsection 1.2. Questions must reference the appropriate page and section number. HHSC's will post subsequent answers to questions to the ESBD as appropriate. HHSC reserves the right to amend answers prior to the open enrollment closing date.

Applicants should notify HHSC of any ambiguity, conflict, discrepancy, omission or other error in the open enrollment.

1.11. Delivery of Notices

Any notice required or permitted under this announcement by one party to the other party must be in writing and correspond with the contact information noted in subsection 1.2. of this open enrollment. At all times, Applicant will maintain and monitor at least one active email address for the receipt of Application-related communications from HHSC. It is the Applicant's responsibility to monitor this email address for Application-related information.

The remainder of this page is intentionally left blank.

2.7. Budget Requirements and Monthly Cost Reimbursement Process

A. Projected Budget Requirements:

In accordance with the requirements contained in Forms F, F-1 through F-7, Applicant must develop a categorical budget, where costs may be allocated to any of the following categories the Applicant identifies during its budget development process:

1. Personnel
2. Fringe Benefits
3. Travel
4. Equipment
5. Supplies
6. Contractual
7. Other
8. Indirect Costs

NOTE: Indirect costs are costs incurred for a common or joint purpose benefiting more than one project or cost objective of Applicant's organization and not readily identified with a particular project or cost objective. Typical examples of Indirect Costs may include general administration and general expenses, such as salaries and expenses of executive officers; personnel administration and accounting; depreciation or use allowances on buildings and equipment; and costs of operating and maintaining facilities.

The Applicant must base the budget and funding request on the Scope of Work.

Applicant must separately identify value-added benefits, cost-savings and cost-avoidance methods and measures, and the effect of such methods on the budget, requested funding, and Scope of Work.

B. Monthly Cost Reimbursement Process

HTW contractors will seek reimbursement for project costs by submitting monthly vouchers for expenses outlined in a categorical budget approved by HHSC as required for the cost reimbursement portion of the HTW Program.

HTW funds will be disbursed to contractors through a voucher system as expenses are incurred during the contract term.

Reimbursement must be requested by using a purchase voucher and providing supporting documentation. Vouchers and supporting documentation must be submitted monthly, within 30 days following the end of the month in which the costs were incurred.

Program income from the HTW Fee-for-Service Program claims payment must be expended before HTW cost reimbursement funds are requested through the voucher process. Contractors will be required to submit monthly vouchers even if program income equals or exceeds program expenses. When program expenses exceed program income, the monthly voucher will result in a payment up to the not-to-exceed amount of the contract.

2.8. Funding Request and Clients Served

On (Form H), an Applicant must estimate the projected amount of cost reimbursement funding needed, which must be based on the total cost of providing support services and conducting activities that enhance the clinical outcomes of HTW Fee-for-Service Program clients. Applicant must estimate the number of Unduplicated Clients that will be served during the term of the contract.

NOTE: Contractors who, at the time of contract commencement, are not yet enrolled as Texas Medicaid Providers for the HTW Program will be allowed to provide support services for clients and women deemed presumptively eligible for participation in the HTW Program. The services may only be provided in clinics that are assessed to be ready on Form K. All direct clinical services provided that qualify for payment under the HTW Fee-for-Service Program must, upon enrollment as a Texas Medicaid Provider, be charged to the HTW Fee-for-Service portion of the HTW Program prior to a contractor seeking reimbursement under the contract resulting from this procurement. In the event those services are not paid under the HTW Fee-for-Service portion of the HTW Program, a contractor may then submit those costs for reimbursement under the contract resulting from this procurement.

2.9. Service Delivery Area(s)

The geographic area to be served is statewide consisting of HHSC's Regions 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, and 11.

Applicant must develop goals and objectives as required in Form I, "Work Plan." Contractors will be required to report on whether they attained the goals and objectives they identified on Form I on an annual basis (See subsection 2.6. of this open enrollment).

4. HISTORICALLY UNDERUTILIZED BUSINESSES (HUB)

It is the policy of the Health and Human Services' (HHS) HUB Program Office to include the HUB Subcontracting Plan (HSP), when subcontracting opportunities are probable and a contract has an expected value of \$100,000 or more over and the HSP is applicable for the life of the contract including any subsequent amendments and renewals related to the original HSP.

In addition to, and in accordance with, Texas Administrative Code Title 34, Part 1, Chapter 20, Subchapter B, Rule §20.14, when the contractor is selected and decides to subcontract any part of the contract after the award, as a provision of the contract, the contractor must comply with the HSP provisions relating to developing and submitting a revised HSP before any modifications or performance in the awarded contract involving subcontracting can be authorized by the state agency.

HHSC has determined that subcontracting opportunities are probable for this Application. As a result, the Applicant must submit an HSP with its Application. The HSP is required whether an Applicant intends to subcontract or not.

In accordance with Texas Government Code §2161.252, an Application that does not contain a HUB Subcontracting Plan (HSP) is non-responsive and will be rejected without further review. In addition, **if HHSC determines that the HSP was not developed in good faith, it will reject the Application for failing to comply with material Application specifications.**

4.1. Introduction

The sole point of contact for HUB inquires:

**Texas Health and Human Services Commission
John Wesley Smith, HUB Coordinator
Phone: (512) 406-2536
E-mail: John.Wesley.Smith@hhsc.state.tx.us**

HHSC is committed to promoting full and equal business opportunities for businesses in state contracting in accordance with the goals specified in the State of Texas Disparity Study. HHSC encourages the use of Historically Underutilized Businesses (HUBs) through race, ethnic and gender-neutral means. HHSC has adopted administrative rules relating to HUBs and a Policy on the Utilization of HUBs which is located on HHSC's website. Pursuant to Texas Government Code §2161.181 and §2161.182 and HHSC's HUB policy and rules, HHSC is required to make a good faith effort to increase HUB participation in its contracts. HHSC may accomplish the goal of increased HUB participation by contracting directly with HUBs or indirectly through subcontracting opportunities.

4.2. HHSC's Administrative Rules

HHSC has adopted the Comptroller of Public Accounts' (CPA) HUB rules as its own. HHSC's rules are located in the Texas Administrative Code Title 1, Part 15, Chapter 391, Subchapter G and the CPA rules are located in Texas Administrative Code Title 34, Part 1, Chapter 20, Subchapter B. If there are any discrepancies between HHSC's administrative rules and this open enrollment, the rules shall take priority.

4.3. Statewide Annual HUB Utilization Goal

The CPA has established **statewide annual HUB utilization goals** for different categories of contracts in Texas Administrative Code Title 34, Part 1, Chapter 20, Subchapter B, §20.13 of the HUB rules. In order to meet or exceed the **statewide annual HUB utilization goals**, HHSC encourages Outreach to certified HUBs. Contractors shall make a good faith effort to include certified HUBs in the procurement process. This procurement is classified as an **All Other Services** procurement under the CPA rule and therefore has a **statewide annual HUB utilization goal** of **26.0%** per fiscal year.

4.4. Required HUB Subcontracting Plan

In the HSP, an Applicant must indicate whether it is a Texas certified HUB. Being a certified HUB does not exempt an Applicant from completing the HSP requirement.

HHSC shall review the documentation submitted by the Applicant to determine if a good faith effort has been made in accordance with open enrollment and HSP requirements. During the good faith effort determination, HHSC may, at its discretion, allow revisions necessary to clarify and enhance information submitted in the original HSP.

If HHSC determines that the Applicant's HSP was not developed in good faith, the HSP will be considered non-responsive and will be rejected as a material failure to comply with advertised specifications. The reasons for rejection shall be recorded in the procurement file.

4.5. CPA Centralized Master Bidders List

Applicants may search for HUB subcontractors in the CPA's Centralized Master Bidders List (CMBL) HUB Directory, which is located on the CPA's website at <http://www2.cpa.state.tx.us/cmbll/cmbllhub.html>. For this procurement, HHSC has identified the following class and item codes for potential subcontracting opportunities:

National Institute of Governmental Purchasing (NGIP) Class/Item Code(s):

- **924-16: Laboratory Testing Services**
- **918-88: Quality Assurance Services**
- **948-47: Care Center Services, Health**
- **948-48: Drug Monitoring Services, International; Ethics & Code of conduct, Medical, Euthanasia; Faith Healers**
- **948-55: Laboratory Services; Non-Physician**
- **948-74: Physician Professional Services**

- **952-62: Mental Health Services**
- **952-88: Teen Pregnancy Services**
- **952-42: Family Planning**

Applicants are not required to use, nor are they limited to using, the class and item codes identified above, and may identify other areas for subcontracting. However, the NIGP class/item codes are preferred with all Applications.

HHSC does not endorse, recommend nor attest to the capabilities of any company or individual listed on the CPA's CMBL. The list of certified HUBs is subject to change, so Applicants are encouraged to refer to the CMBL often to find the most current listing of HUBs.

4.6. HUB Subcontracting Procedures – If an Applicant Intends to Subcontract

An HSP must demonstrate that the Applicant made a good faith effort to comply with HHSC's HUB policies and procedures. The following subparts outline the items that HHSC will review in determining whether an HSP meets the good faith effort standard. An Applicant that intends to subcontract must complete the HSP to document its good faith efforts.

- Identify Subcontracting Areas and Divide Them into Reasonable Lots

An Applicant should first identify each area of the contract work it intends to subcontract. Then, to maximize HUB participation, it should divide the contract work into reasonable lots or portions, to the extent consistent with prudent industry practices.

- Notify Potential HUB Subcontractors

The HSP must demonstrate that the Applicant made a good faith effort to subcontract with HUBs. The Applicant's good faith efforts shall be shown through utilization of all methods in conformance with the development and submission of the HSP and by complying with the following steps:

Divide the contract work into reasonable lots or portions to the extent consistent with prudent industry practices. The Applicant must determine which portions of work, including goods and services, will be subcontracted.

Select the appropriate method(s) to demonstrate good faith effort. The Applicant can use either method(s) 1, 2, 3, 4 or 5:

A. Method 1: Applicant Intends to Subcontract with only HUBs:

The Applicant must identify in the HSP the HUBs that will be utilized and submit written documentation that confirms 100% of all available subcontracting opportunities will be performed by one or more HUBs; or

B. Method 2: Applicant Intends to Subcontract with HUB Protégé(s):

The Applicant must identify in the HSP the HUB Protégé(s) that will be utilized and should:

- Include a fully executed copy of the Mentor Protégé Agreement, which must be registered with the CPA prior to submission to HHSC; and
- Identify areas of the HSP that will be performed by the Protégé.

HHSC will accept a Mentor Protégé Agreement that has been entered into by an Applicant (Mentor) and a certified HUB (Protégé) in accordance with Texas Government Code §2161.065. When an Applicant intends to subcontract with a Protégé(s), it does not need to provide notice to three (3) HUB vendors for that subcontracted area.

Participation in the Mentor Protégé Program, along with the submission of a Protégé as a subcontractor in an HSP, constitutes a good faith effort for the particular area subcontracted to the protégé; or

C. Method 3: Applicant Intends to Subcontract with HUBs and Non-HUBs (Meet or Exceed the Goal):

The Applicant must identify in the HSP and submit written documentation that one or more HUB subcontractors will be utilized and that the aggregate expected percentage of subcontracts with HUBs will meet or exceed the goal specified in this open enrollment. When utilizing this method, only HUB subcontractors that have existing contracts with the Applicant for five years or less may be used to comply with the good faith effort requirements.

When the aggregate expected percentage of subcontracts with HUBs meets or exceeds the goal specified in this open enrollment, Applicants may also use non-HUB subcontractors; or

D. Method 4: Applicant Intends to Subcontract with HUBs and Non-HUBs (Does Not Meet or Exceed the Goal):

The Applicant must identify in the HSP and submit documentation regarding both of the following requirements:

Written notification to trade organizations and/or development centers to assist in identifying potential HUBs of the subcontracting opportunities the Applicant intends to subcontract. Applicants must give trade organizations and/or development centers at least seven (7) working days prior to submission of the Applicant's Application for dissemination of the subcontracting opportunities to their members. A list of trade organizations and/or development centers is located on CPA's website under the Minority and Women Organization Links.

- Written notification to at least three (3) HUB businesses of the subcontracting opportunities that the Applicant intends to subcontract. The written notice must be sent to potential HUB subcontractors prior to submitting Applications and must include:

- a description of the scope of work to be subcontracted;
 - information regarding the location to review project plans or specifications;
 - information about bonding and insurance requirements;
 - required qualifications and other contract requirements; and
 - a description of how the subcontractor can contact the Applicant.
- Applicants must give potential HUB subcontractors a reasonable amount of time to respond to the notice, at least seven (7) working days prior to submission of the Applicant's Application unless circumstances require a different time period, which is determined by the agency and documented in the contract file.
- Applicants must also use the CMBL, the HUB Directory, and Internet resources when searching for HUB subcontractors. Applicants may rely on the services of contractor groups, local, state and federal business assistance offices, and other organizations that provide assistance in identifying qualified applicants for the HUB program.
- Written Justification of the Selection Process

HHSC will make a determination if a good faith effort was made by the Applicant in the development of the required HSP. One or more of the methods identified in the previous sections may be applicable to the Applicant's good faith efforts in developing and submission of the HSP. HHSC may require the Applicant to submit additional documentation explaining how the Applicant made a good faith effort in accordance with the open enrollment.

An Applicant must provide written justification of its selection process if it chooses a non-HUB subcontractor. The justification should demonstrate that the Applicant negotiated in good faith with qualified HUB bidders and did not reject qualified HUBs who were the best value applicant.

4.7. Method 5: Applicant Does Not Intend to Subcontract

When the Applicant plans to complete all contract requirements with its own equipment, supplies, materials and/or employees, it is still required to complete an HSP.

The Applicant must complete the "Self-Performance Justification" portion of the HSP, and attest that it does not intend to subcontract for any goods or services, including the class and item codes identified in Section 4.5. In addition, the Applicant must identify the sections of the Application that describe how it will complete the Scope of Work using its own resources or provide a statement explaining how it will complete the Scope of Work using its own resources. The Applicant must agree to comply with the following if requested by HHSC:

- provide evidence of sufficient Applicant staffing to meet the Application requirements;
- provide monthly payroll records showing the Applicant staff fully dedicated to the contract;
- allow HHSC to conduct an on-site review of company headquarters or work site where services are to be performed; and
- provide documentation proving employment of qualified personnel holding the necessary licenses and certificates required to perform the Scope of Work.

4.8. Post-award HSP Requirements

The HSP shall be reviewed and evaluated prior to contract award and, if accepted, the finalized HSP will become part of the contract with the successful Applicant(s).

After contract award, HHSC will coordinate a post-award meeting with the successful Applicant to discuss HSP reporting requirements. The contractor must maintain business records documenting compliance with the HSP and must submit monthly subcontract reports to HHSC by completing the HUB HSP Prime Contractor Progress Assessment. This monthly report is required as a condition for payment to report to the agency the identity and the amount paid to all subcontractors.

As a condition of award, the Contractor is required to send notification to all selected subcontractors as identified in the accepted/approved HSP. In addition, a copy of the notification must be provided to the agency's Contract Manager and/or HUB Program Office within 10 days of the contract award.

During the term of the contract, if the parties in the contract amend the contract to include a change to the scope of work or add additional funding, HHSC will evaluate to determine the probability of additional subcontracting opportunities. When applicable, the Contractor must submit an HSP change request for HHSC review. The requirements for an HSP change request will be covered in the post-award meeting.

When making a change to an HSP, the Contractor will obtain prior written approval from HHSC before making any changes to the HSP. Proposed changes must comply with the HUB Program good faith effort requirements relating to the development and submission of a HSP.

If the Contractor decides to subcontract any part of the contract after the award, it must follow the good faith effort procedures outlined in Section 4 of this open enrollment (e.g., divide work into reasonable lots, notify at least three (3) vendors per subcontracted area, provide written justification of the selection process, and/or participate in the Mentor Protégé Program).

For this reason, HHSC encourages Applicants to identify, as part of their HSP, multiple subcontractors who are able to perform the work in each area the Applicant plans to subcontract. Selecting additional subcontractors may help the selected contractor make changes to its original HSP, when needed, and will allow HHSC to approve any necessary changes expeditiously.

Failure to meet the HSP and post-award requirements will constitute a breach of contract and will be subject to remedial actions. HHSC may also report noncompliance to the CPA in accordance with the provisions of the Vendor Performance and Debarment Program.

5.3. Use of Subcontractors

Subcontractors providing services under the contract shall meet the same requirements and level of experience as required of the Applicant. “Third Party Software” refers to software programs or plug-ins developed by companies or individuals other than Contractor which are used in performance of the Work. It does not include items which are ancillary to the performance of the Work, such as internal systems of Contractor which were deployed by Contractor prior to the Contract and not procured to perform the Work.

ARTICLE II. GENERAL PROVISIONS

2.01 Controlling Order

Unless otherwise agreed, in the event of any conflict or contradiction between or among the provisions of the Contract, the provisions in the documents will control in the following order:

- a. The Signature Document;
- b. These Special Conditions;
- c. HHSC Uniform Terms and Conditions – Vendor;
- d. The Solicitation and any addendums, corrections, and clarifications; then
- e. Contractor’s Solicitation Response and any agreed to modifications.

2.02 Inducements

In awarding the Contract, the HHSC relies on Contractor’s assurances of the following:

- a. Contractor and its Subcontractors are established providers of the WSD described in the Solicitation and required under the Contract;
- b. Contractor and its Subcontractors have the skills, qualifications, expertise, financial resources, and experience necessary to perform the WSD in an efficient, cost-effective manner, with a high degree of quality and responsiveness.
- c. Contractor has performed similar WSD for other public or private entities;
- d. Contractor has thoroughly reviewed, analyzed, and understood the Solicitation, has timely raised all questions or objections to the Solicitation or WSD, and has had the opportunity to review and fully understand HHSC’s current program and operating environment for the activities that are the subject of the Contract and the needs and requirements of the State during the Contract term;
- e. Contractor has had the opportunity to review and understand the State’s stated objectives in entering into the Contract and, based on such review and understanding, Contractor currently has

the capability to perform the WSD in accordance with the terms and conditions of the Contract;
and

- f. Contractor fully understands the risks associated with public health and human service programs administered by HHSC as described in the Solicitation, including the risk of non-appropriation of funds.

2.03 Delegation of Authority

Whenever, by any provision of the Contract, any right, power, or duty is imposed or conferred on HHSC, the right, power, or duty so imposed or conferred is possessed and exercised by HHSC's Executive Commissioner unless such is delegated to duly appointed agents or employees of HHSC. HHSC's Executive Commissioner will reduce any delegation of authority to writing and provide a copy to Contractor on request. The authority delegated to Contractor by HHSC is limited to the terms of the Contract. Contractor may not rely upon implied authority and is not delegated authority under the Contract to:

- a. Make public policy;
- b. Promulgate, amend, or disregard administrative regulations or program policy decisions made by State and federal agencies responsible for administration of HHSC Programs; or

However, upon request and reasonable notice to the Contractor, Contractor will assist HHSC in communications and negotiations regarding the WSD under the Contract with state and federal governments.

2.04 Other System Agencies Participation in the Contract

In addition to providing the WSD specified for HHSC, Contractor agrees to allow other System Agencies the option to participate in the Contract under the same terms and conditions. Each System Agency that elects to obtain WSD under this section will issue a purchase or work order to Contractor, referring to, and incorporating by reference, the terms and conditions specified in the Contract.

System Agencies have no authority to modify the terms of the Contract. However, additional System Agency terms and conditions that do not conflict with the Contract, and are acceptable to the Contractor, may be added in a purchase or work order and given effect. No additional term or condition added in a purchase or work order issued by a System Agency can conflict with or diminish a term or condition of the Contract. In the event of a conflict between a System Agency's purchase or work order and the Contract, the Contract terms control.

2.05 Most Favored Customer

Contractor agrees that if during the term of the Contract, Contractor enters into any agreement with any other governmental customer, or any non-affiliated commercial customer by which it agrees to provide equivalent services at lower prices, or additional services at comparable prices, Contractor will notify HHSC within (10) business days from the date Contractor executes any such agreement. Contractor agrees, at HHSC's option, to amend the Contract to accord equivalent advantage to HHSC.

2.06 Assumption After Assignment

As authorized in the VUTC, each party to whom an assignment is made must assume all or any part of Contractor's interests in the Contract, the WSD, and any documents executed with respect to the Contract, including, without limitation, the assignor's obligation for all or any portion of the purchase payments, in whole or in part.

2.07 Cooperation with HHSC Vendors

At HHSC's request, Contractor will allow parties interested in responding to other HHSC solicitations to have reasonable access during normal business hours to the WSD, software, systems documentation, and site visits to the Contractor's facilities. Contractor may elect to have such parties inspecting the WSD, facilities, software or systems documentation to agree to use the information so obtained only in the State of Texas and only for the purpose of responding to the relevant HHSC solicitation.

2.08 Renegotiation and Reprocurement Rights

Notwithstanding anything in the Contract to the contrary, HHSC may at any time during the term of the Contract exercise the option to notify Contractor that HHSC has elected to renegotiate certain terms of the Contract. Upon Contractor's receipt of any notice under this section, Contractor and HHSC will undertake good faith negotiations of the subject terms of the Contract.

HHSC may at any time issue solicitation instruments to other potential contractors for performance of any portion of the WSD covered by the Contract, including services similar or comparable to the WSD, performed by Contractor under the Contract. If HHSC elects to procure the WSD, or any portion thereof, from another vendor in accordance with this section, HHSC will have the termination rights set forth in the VUTC.

2.09 Solicitation Errors

Contractor will not take advantage of any errors or omissions in the Solicitation or the resulting Contract. Contractor must promptly notify HHSC of any errors or omissions that are discovered. Failure to notify HHSC of any errors will constitute a waiver of those errors.

ARTICLE III. PROHIBITION AGAINST PERFORMANCE OUTSIDE OF THE UNITED STATES

3.01 Authority

HHSC is responsible for the development and implementation of Software and hardware to support HHSC programs, which are paid for in whole or in part with State and federal funds. Accordingly, such Software and hardware may be subject to statutory restrictions on the export of technology to foreign nations, including but not limited to the Export Administration Regulations contained in 15 C.F.R. Parts 730-774.

3.02 Prohibition

Contractor agrees that, unless specifically authorized in writing by HHSC:

- (1) All WSD under this Contract, including that of Subcontracts, will be performed exclusively within the United States. This obligation includes, but is not limited to, information technology services, processing, transmission, storage, archiving, data center services, disaster recovery sites and services, customer support, medical, dental, laboratory and clinical services, services related to Custom Software, and all modifications of Custom Software, Third Party Software, or vendor proprietary software;
- (2) All information obtained by Contractor or a Subcontractor under this Contract shall be maintained within the United States; and shall not leave the United States by any means (physical or electronic) at any time; and
- (3) Contractor shall not permit any person or entity at a location Outside The United States to have remote access to any of the WSD under the Contract without HHSC's written approval.

3.03 Exception

The prohibition against WSD Outside the United States does not preclude the acquisition or use of commercial off-the-shelf (COTS) software that is developed Outside the United States or hardware that is generically configured Outside the United States. The prohibition against WSD Outside the United States does not preclude Contractor from acquiring or using products or supplies that are manufactured Outside the United States, provided such products or supplies are commercially available within the United States for acquisition.

3.04 Remedy

Contractor's violation of this section will constitute a material breach of the Contract. Contractor will be liable to HHSC for all damages in accordance with the Contract.

ARTICLE IV. CONTRACTOR PERSONNEL AND SUBCONTRACTORS

4.01 Qualifications

Contractor agrees to maintain the organizational and administrative capacity and capabilities proposed in its response to the Solicitation, as modified, to carry out all duties and responsibilities under the Contract. Contractor Agents assigned to perform the duties and responsibilities under the Contract must be and remain properly trained and qualified for the functions they are to perform. Notwithstanding the transfer or turnover of personnel, Contractor remains obligated to perform all duties and responsibilities under the Contract without degradation and in strict accordance with the terms of the Contract.

4.02 Conduct and Removal

While performing the WSD under the Contract, Contractor Agents must comply with applicable Contract terms, State and federal rules, regulations, HHSC's policies, and HHSC's requests regarding personal and professional conduct; and otherwise conduct themselves in a businesslike and professional manner.

If HHSC determines in good faith that a particular Contractor Agent is not conducting himself or herself in accordance with the terms of the Contract, HHSC may provide Contractor with notice and documentation regarding its concerns. Upon receipt of such notice, Contractor must promptly investigate the matter and, at HHSC's election, take appropriate action that may include removing the Contractor Agent from

performing any WSD under the Contract and replacing the Contractor Agent with a similarly qualified individual acceptable to HHSC as soon as reasonably practicable or as otherwise agreed to by HHSC.

4.03 No Authority

Contractor Agents are not employees of HHSC or the State of Texas and are considered Contractor's employees for all purposes. Except as provided in the Contract, neither Contractor nor any of Contractor Agents may act in any sense as agents or representatives of HHSC or the State of Texas.

4.04 E-Verify

By entering into this Contract, Contractor certifies and ensures that it utilizes and will continue to utilize, for the term of this Contract, the U.S. Department of Homeland Security's E-Verify system to determine the eligibility of:

- (1) All persons employed to WSD within the State of Texas, during the term of the Contract; and
- (2) All Contractor Agents assigned by Contractor to perform WSD pursuant to the Contract, within the United States of America.

4.05 Subcontractors Not Identified in the Solicitation Response

Prior to entering into a Subcontract, Contractor must identify any Subcontractor that is a newly-formed subsidiary or entity, whether or not an affiliate of Contractor, substantiate the proposed Subcontractor's ability to perform the subcontracted WSD, and certify to HHSC that no loss of WSD will occur as a result of the performance of such Subcontractor.

At HHSC's request, prior to executing a Subcontract with a value greater than \$100,000.00, Contractor must submit a copy of the Subcontract to HHSC for review and approval. HHSC reserves the right to:

- (1) Reject the Subcontract or require changes to any provisions that do not comply with the requirements, duties, or responsibilities of the Contract or that create significant barriers for HHSC to monitor compliance with the Contract;
- (2) Object to the selection of the Subcontractor; or
- (3) Object to the subcontracting of the WSD proposed to be subcontracted.

ARTICLE V. PERFORMANCE

5.01 Measurement

Satisfactory performance of the Contract, unless otherwise specified in the Contract, will be measured by:

- (1) Compliance with Contract requirements, including all representations and warranties;
- (2) Compliance with the WSD requested in the Solicitation and WSD proposed by Contractor in its response to the Solicitation and approved by HHSC;
- (3) Delivery of WSD in accordance with the service levels proposed by Contractor in the Solicitation Response as accepted by HHSC;
- (4) Results of audits, inspections, or quality checks performed by the HHSC or its designee;

- (5) Timeliness, completeness, and accuracy of WSD; and
- (6) Achievement of specific performance measures and incentives as applicable.

ARTICLE VI. AMENDMENTS AND MODIFICATIONS

6.01 Formal Procedure

No different or additional WSD or contractual obligations will be authorized or performed unless contemplated within the Scope of Work and memorialized in an amendment or modification of the Contract that is executed in compliance with this Article. No waiver of any term, covenant, or condition of the Contract will be valid unless executed in compliance with this Article. Contractor will not be entitled to payment for WSD that is not authorized by a properly executed Contract amendment or modification, or through the express written authorization of HHSC.

Any changes to the Contract that results in a change to either the term, fees, or significantly impacting the obligations of the parties to the Contract must be effectuated by a formal Amendment to the Contract. Such Amendment must be signed by the appropriate and duly authorized representative of each party in order to have any effect.

6.02 Minor Administrative Changes

HHSC's designee, referred to as the Contract Manager, Project Sponsor, or other equivalent, in the Contract, is authorized to provide written approval of mutually agreed upon Minor Administrative Changes to the WSD or the Contract that do not increase the fees or term. Changes that increase the fees or term must be accomplished through the formal amendment procedure, as set forth in Section 6.01 of these Special Conditions. Upon approval of a Minor Administrative Change, HHSC and Contractor will maintain written notice that the change has been accepted in their Contract files.

6.03 Technical Guidance Letters

Notwithstanding anything to the contrary in the Contract, Technical Guidance Letters ("TGL") as provided by the VUTC will not act as an Amendment or modification to the Contract to the extent such affect price or term of the Contract. Such TGLs are interpretive and instructional only and are not authorized to extend the term, modify the fees or other payment arrangements, increase the Contract total value, or materially change the substance of the WSD.

ARTICLE VII. AUDITS AND RECORDS

7.01 Record Retention

Contractor will comply with the records retention schedule approved by the Texas State Library and Archives Commission, unless a longer period is specified in the Contract. Contractor acknowledges that such schedule may be amended or modified from time to time and agrees to give any such modification or amendment full effect. The current approved schedule is published at <https://www.tsl.texas.gov/sites/default/files/public/tslac/slrn/state/schedules/529.PDF>. It is Contractor's

responsibility to monitor the Texas State Library and Archives Commission's approval of HHSC's record retention schedules.

7.02 Access and Accommodation

In providing the access required by the VUTC for records and audits, Contractor will provide access to records, books, and documents in reasonable comfort and will provide any furnishings, equipment, or other conveniences necessary to enable complete and unfettered access to records, books, and documents to HHSC and any of its duly authorized representatives, as well as duly authorized federal, state or local authorities. Contractor will require Contractor Agents to provide comparable accommodations. Upon request, Contractor will provide copies of records, books, and documents free of charge to HHSC and any of its duly authorized representatives, as well as duly authorized federal, state or local authorities, including those the entities described in the VUTC.

The access and accommodations set forth in this section will also be provided for Software and equipment used in the performance of the WSD. Contractor will provide reasonable assistance that this section requires to auditors and/or inspectors to complete any audits or inspections related to the WSD.

Contractor will include this section concerning the right of access to, and examination of, sites and information related to this Contract in any Subcontract it awards.

7.03 Response to Audits or Inspection Findings

Contractor will take all action to ensure it, or a Contractor Agent, complies with any finding of noncompliance relating to the WSD or any other deficiency contained in any audit, review, or inspection conducted under the Contract. Contractor will bear the expense of compliance with any finding of noncompliance under the Contract that is:

- (1) Required by a Texas or federal law, regulation, rule or other audit requirement relating to Contractor's business;
- (2) Performed by Contractor as part of the WSD; or
- (3) Necessary due to Contractor's noncompliance with any law, regulation, rule or audit requirement imposed on Contractor.

ARTICLE VIII. PAYMENT

8.01 Duty to Make Payment

HHSC will be relieved of its obligation to make any payments to Contractor until such time as any and all set-off amounts have been credited to HHSC. If HHSC disputes payment of all or any portion of an invoice from Contractor, HHSC will notify the Contractor of the dispute and both Parties will attempt in good faith to resolve the dispute in accordance with these Special Conditions. HHSC will not be required to pay any disputed portion of a Contractor invoice unless, and until, the dispute is resolved. Notwithstanding any such dispute, Contractor will continue to perform the WSD in compliance with the terms of the Contract pending resolution of such dispute so long as all undisputed amounts continue to be paid to Contractor.

ARTICLE IX. CONFIDENTIALITY

9.01 Requests for Public Information

HHSC will, as permitted by law and as practicable considering HHSC's resources, notify Contractor of a request for disclosure of public information related to the Contract filed in accordance with the Texas Public Information Act, Texas Government Code Chapter 552 ("PIA"). In the event Contractor believes the requested information should be protected under the PIA, Contractor will comply with PIA requirements pertaining to that information and will provide HHSC with copies of all such documentation required to support its request for nondisclosure. Contractor must make public information not otherwise excepted from disclosure under the PIA available to HHSC at no additional charge to HHSC.

To the extent authorized under the PIA, HHSC will safeguard from disclosure information received from Contractor that Contractor believes to be confidential. Contractor must clearly mark each page of such information as "Contractor Confidential Information" and provide written notice to HHSC that it considers the information confidential in accordance with the PIA. Contractor's designation or marking of information in this manner does not act, and should not be construed, as an agreement or other consent by HHSC that such information is actually confidential pursuant to the PIA.

9.02 Consultant Disclosure

Contractor agrees that any consultant reports received by HHSC in connection with the Contract may be distributed by HHSC, in its discretion, to any other state agency and the Texas legislature. Any distribution may include posting on HHSC's website or the website of a standing committee of the Texas Legislature.

9.03 Other Confidential Information

HHSC prohibits the unauthorized disclosure of Other Confidential Information. Contractor and all Contractor Agents will not disclose or use any Other Confidential Information in any manner except as is necessary for the WSD or the proper discharge of obligations and securing of rights under the Contract. Contractor will have a system in effect to protect Other Confidential Information. Any disclosure or transfer of Other Confidential Information by Contractor, including information requested to do so by HHSC, will be in accordance with the Contract. If Contractor receives a request for Other Confidential Information, Contractor will immediately notify HHSC of the request, and will make reasonable efforts to protect the Other Confidential Information from disclosure until further instructed by the HHSC.

Contractor will notify HHSC promptly of any unauthorized possession, use, knowledge, or attempt thereof, of any Other Confidential Information by any person or entity that may become known to Contractor. Contractor will furnish to HHSC all known details of the unauthorized possession, use, or knowledge, or attempt thereof, and use reasonable efforts to assist HHSC in investigating or preventing the reoccurrence of any unauthorized possession, use, or knowledge, or attempt thereof, of Other Confidential Information.

HHSC will have the right to recover from Contractor all damages and liabilities caused by or arising from Contractor or Contractor Agents' failure to protect HHSC's Confidential Information as required by this section.

IN COORDINATION WITH THE INDEMNITY PROVISIONS CONTAINED IN THE VUTC, CONTRACTOR WILL INDEMNIFY AND HOLD HARMLESS HHSC FROM ALL DAMAGES, COSTS, LIABILITIES, AND EXPENSES (INCLUDING WITHOUT LIMITATION REASONABLE ATTORNEYS' FEES

AND COSTS) CAUSED BY OR ARISING FROM CONTRACTOR OR CONTRACTOR AGENTS FAILURE TO PROTECT OTHER CONFIDENTIAL INFORMATION. CONTRACTOR WILL FULFILL THIS PROVISION WITH COUNSEL APPROVED BY HHSC.

ARTICLE X. DISPUTES AND REMEDIES

10.01 Agreement of the Parties

The Parties agree that the interests of fairness, efficiency, and good business practices are best served when the Parties employ all reasonable and informal means to resolve any dispute under the Contract before resorting to formal dispute resolution processes otherwise provided in the Contract. The Parties will use all reasonable and informal means of resolving disputes prior to invoking a remedy provided elsewhere in the Contract, unless HHSC immediately terminates the Contract in accordance with the terms and conditions of the Contract.

Any dispute, that in the judgment of any Party to the Agreement, may materially affect the performance of any Party will be reduced to writing and delivered to the other Party within 10 business days after the dispute arises. The Parties must then negotiate in good faith and use every reasonable effort to resolve the dispute at the managerial or executive levels prior to initiating formal proceedings pursuant to the VUTC and Texas Government Code §2260, unless a Party has reasonably determined that a negotiated resolution is not possible and has so notified the other Party. The resolution of any dispute disposed of by agreement between the Parties will be reduced to writing and delivered to all Parties within 10 business days of such resolution.

10.02 Operational Remedies

The remedies described in this section may be used or pursued by HHSC in the context of the routine operation of the Contract and are directed to Contractor's timely and responsive performance of the WSD as well as the creation of a flexible and responsive relationship between the Parties. Contractor agrees that HHSC may pursue operational remedies for Items of Noncompliance with the Contract. At any time, and at its sole discretion, HHSC may impose or pursue one or more said remedies for each Item of Noncompliance. HHSC will determine operational remedies on a case-by-case basis which include, but are not, limited to:

- 1) Requesting a detailed Corrective Action Plan, subject to HHSC approval, to correct and resolve a deficiency or breach of the Contract;
- 2) Require additional or different corrective action(s) of HHSC's choice;
- 3) Suspension of all or part of the Contract or WSD;
- 4) Prohibit Contractor from incurring additional obligations under the Contract;
- 5) Issue stop Work Orders;
- 6) Assessment of liquidated damages as provided in the Contract;
- 7) Accelerated or additional monitoring;
- 8) Withholding of payments; and
- 9) Additional and more detailed programmatic and financial reporting.

HHSC's pursuit or non-pursuit of an operational remedy does not constitute a waiver of any other remedy that HHSC may have at law or equity; excuse Contractor's prior substandard performance, relieve

Contractor of its duty to comply with performance standards, or prohibit HHSC from assessing additional operational remedies or pursuing other appropriate remedies for continued substandard performance.

HHSC will provide notice to Contractor of the imposition of an operational remedy in accordance with this section, with the exception of accelerated monitoring, which may be unannounced. HHSC may require Contractor to file a written response as part of the operational remedy approach.

10.03 Equitable Remedies

Contractor acknowledges that if, Contractor breaches, attempts, or threatens to breach, any obligation under the Contract, the State will be irreparably harmed. In such a circumstance, the State may proceed directly to court notwithstanding any other provision of the Contract. If a court of competent jurisdiction finds that Contractor breached, attempted, or threatened to breach any such obligations, Contractor will not oppose the entry of an order compelling performance by Contractor and restraining it from any further breaches, attempts, or threats of breach without a further finding of irreparable injury or other conditions to injunctive relief.

10.04 Continuing Duty to Perform

Neither the occurrence of an event constituting an alleged breach of contract, the pending status of any claim for breach of contract, nor the application of an operational remedy, is grounds for the suspension of performance, in whole or in part, by Contractor of the WSD or any duty or obligation with respect to the Contract.

ARTICLE XI. DAMAGES

11.01 Availability and Assessment

HHSC will be entitled to actual, direct, indirect, incidental, special, and consequential damages resulting from Contractor's failure to comply with any of the terms of the Contract. In some cases, the actual damage to HHSC as a result of Contractor's failure to meet the responsibilities or performance standards of the Contract are difficult or impossible to determine with precise accuracy. Therefore, if provided in the Contract, liquidated damages may be assessed against Contractor for failure to meet any aspect of the WSD or responsibilities of the Contractor. HHSC may elect to collect liquidated damages:

- 1) Through direct assessment and demand for payment to Contractor; or
- 2) By deducting the amounts assessed as liquidated damages against payments owed to Contractor for Work performed. In its sole discretion, HHSC may deduct amounts assessed as liquidated damages as a single lump sum payment or as multiple payments until the full amount payable by the Contractor is received by the HHSC.

11.02 Specific Items of Liability

Contractor bears all risk of loss or damage due to defects in the WSD, unfitness or obsolescence of the WSD, or the negligence or intentional misconduct of Contractor or Contractor Agents. Contractor will ship all equipment and Software purchased and Third Party Software licensed under the Contract, freight prepaid, FOB HHSC's destination. The method of shipment will be consistent with the nature of the items shipped and applicable hazards of transportation to such items. Regardless of FOB point, Contractor bears

all risks of loss, damage, or destruction of the WSD, in whole or in part, under the Contract that occurs prior to acceptance by HHSC. After acceptance by HHSC, the risk of loss or damage will be borne by HHSC; however, Contractor remains liable for loss or damage attributable to Contractor's fault or negligence.

Contractor will protect HHSC's real and personal property from damage arising from Contractor or Contractor Agents performance of the Contract, and Contractor will be responsible for any loss, destruction, or damage to HHSC's property that results from or is caused by Contractor or Contractor Agents' negligent or wrongful acts or omissions. Upon the loss of, destruction of, or damage to any property of HHSC, Contractor will notify HHSC thereof and, subject to direction from HHSC or its designee, will take all reasonable steps to protect that property from further damage. Contractor agrees, and will require Contractor Agents, to observe safety measures and proper operating procedures at HHSC sites at all times. Contractor will immediately report to the HHSC any special defect or an unsafe condition it encounters or otherwise learns about.

IN COORDINATION WITH THE INDEMNITY PROVISIONS CONTAINED IN THE VUTC, CONTRACTOR WILL BE SOLELY RESPONSIBLE FOR ALL COSTS INCURRED THAT ARE ASSOCIATED WITH INDEMNIFYING THE STATE OF TEXAS OR HHSC WITH RESPECT TO INTELLECTUAL, REAL AND PERSONAL PROPERTY. ADDITIONALLY, HHSC RESERVES THE RIGHT TO APPROVE COUNSEL SELECTED BY CONTRACTOR TO DEFEND HHSC OR THE STATE OF TEXAS AS REQUIRED UNDER THIS SECTION.

ARTICLE XII. TURNOVER

12.01 Turnover Plan

HHSC may require Contractor to develop a Turnover Plan at any time during the term of the Contract in HHSC's sole discretion. Contractor must submit the Turnover Plan to HHSC for review and approval. The Turnover Plan must describes Contractor's policies and procedures that will ensure:

- 1) The least disruption in the delivery the WSD during Turnover to HHSC or its designee; and
- 2) Full cooperation with HHSC or its designee in transferring the WSD and the obligations of the Contract.

12.02 Turnover Assistance

Contractor will provide any assistance and actions reasonably necessary to enable HHSC or its designee to effectively close out the Contract and transfer the WSD and the obligations of the Contract to another vendor or to perform the WSD by itself. Contractor agrees that this obligation survives the termination, regardless of whether for cause or convenience, or the expiration of the Contract and remains in effect until completed to the satisfaction of HHSC.

ARTICLE XIII. ADDITIONAL LICENSE AND OWNERSHIP PROVISIONS

13.01 HHSC Additional Rights

HHSC will have ownership and unlimited rights to use, disclose, duplicate, or publish all information and data developed, derived, documented, or furnished by Contractor under or resulting from the Contract. Such data will include all results, technical information, and materials developed for or obtained by HHSC from Contractor in the performance of the WSD. If applicable, Contractor will reproduce and include HHSC's copyright, proprietary notice, or any product identifications provided by Contractor.

13.02 Third Party Software

HHSC will be entitled to use Third Party Software on the equipment or any replacement equipment used by HHSC, and with any replacement Third Party Software chosen by HHSC, without additional expense.

Terms in any licenses for Third Party Software will be consistent with the requirements of this section. Prior to utilizing any Third Party Software product not identified in the Solicitation Response, Contractor will provide HHSC copies of the license agreement from the licensor of the Third Party Software to allow HHSC to, in its discretion, object to the license agreement that must, at a minimum, provide HHSC with necessary rights consistent with the short and long-term goals of the Contract. Contractor will assign to HHSC all licenses for the Third Party Software as necessary to carry out the intent of this section.

Contractor will, during the Contract, maintain any and all Third Party Software at their most current version or no more than one version back from the most current version. However, Contractor will not maintain any Third Party Software versions, including one version back, if notified by HHSC that any such version would prevent HHSC from using any functions, in whole or in part, of HHSC systems or would cause deficiencies in HHSC systems.

13.03 Software and Ownership Rights.

In accordance with 45 C.F.R. Part 95.617, all appropriate federal agencies will have a royalty-free, nonexclusive, and irrevocable license to reproduce, publish, translate, or otherwise use, and to authorize others to use for government purposes all WSD, materials, Custom Software and modifications thereof, source code, associated documentation designed, developed, or installed with Federal Financial Participation under the Contract, including but not limited to those materials covered by copyright.

ARTICLE XIV. MISCELLANEOUS PROVISIONS

Contractor will, and require Contractor Agents, to establish safeguards to prohibit Contract Agents from using their positions for a purpose that constitutes or presents the appearance of personal or organizational Conflict of Interest, or for personal gain. Contractor and Contractor Agents will operate with complete independence and objectivity without actual, potential or apparent Conflict of Interest with respect to the activities conducted under the Contract.

Contractor agrees that, if after Contractor's execution of the Contract, Contractor discovers or is made aware of a Conflict of Interest, Contractor will immediately and fully disclose such interest in writing to HHSC. In addition, Contractor will promptly and fully disclose any relationship that might be perceived or represented as a conflict after its discovery by Contractor or by HHSC as a potential conflict. HHSC reserves the right to make a final determination regarding the existence of Conflicts of Interest, and Contractor agrees to abide by HHSC's decision.

If HHSC determines that Contractor was aware of a Conflict of Interest and did not disclose the conflict to HHSC, such nondisclosure will be considered a material breach of the Contract. Furthermore, such breach may be submitted to the Office of the Attorney General, Texas Ethics Commission, or appropriate State or federal law enforcement officials for further action.

Attachment D – Contractor's Original Application

Section 1. Executive Summary

Brazos Valley Community Action Agency, Inc. (BVCAA) has provided healthcare and social services to its underserved residents in Brazos Valley for over forty years. Our mission is “to assist in the empowerment of individuals, families and communities to reach their full potential economically, educationally, health-wise, culturally and socially”. We are a private non-profit entity governed by a fifteen member governing board panel. We became a federally qualified health center in 2002.

BVCAA is an experienced provider of family planning and women’s health services. It has received Texas Department of State Health Services family planning funding, and has on average served over 3,200 unduplicated women in need annually, through its multiple clinic locations, spread out in our service area in Brazos Valley. We are currently WHP certified and serve patients under the Texas Women’s Health Program.

There are 85,560 women aged 15 to 44 years in our proposed service area, and over 40% have incomes below 200% of federal poverty level. Health status of the priority population is presented in the assessment section. Our proposal includes a plan to support our priority patients in the Healthy Texas Women Program: Assist eligible 1,800 Healthy Texas Women Program (HTWP) patients with enrollment in to the HTWP Fee for Service program. The purpose of our program is to increase access to family planning and women’s health services in order to prevent unintended pregnancies, positively affect future pregnancies, and have an overall positive health outcome of women enrolled in HTWP.

We will provide services to eligible clients directly through our own employed physician, midlevel practitioner provider and support staff HTWP. Our staff development and training team will ensure required training including the use of Long Acting Reversible Contraception usage. HTWP in-reach and outreach efforts will be conducted for current as well as community residents. We will provide clinical care to women determined presumptively eligible per the rules of the HTWP. The proposal includes detailed work plan, staff training, and outreach activities planned for HTWP.

Our Quality Improvement program is comprehensive and we will track metrics to ensure the implementation of HTWP that is proposed here. All patient records will be maintained through our electronic health records system.

We have a robust financial management system in place that tracks revenue and expenditure of all our programs through a system of unique coding strings for each program. Our billing staff is experienced in preparing monthly billings for the cost reimbursement components of the HTWP.

The enclosed application packet contains all required forms A through M as well as all required certifications and attestations in the appendix section including the sealed HUB subcontracting plan, and the signed Addendums.

We have significant experience in serving our target population, those individuals and families who are uninsured or underinsured with incomes at or below 200% of federal poverty level. Services are provided through twelve clinic locations spread out in our service area. Our clinics are federally qualified health centers. We have been family planning providers for over thirty years, and we are certified women’s health providers.

Our main clinic site in Bryan has class A pharmacy on site, and our other family planning clinic sites have Class D pharmacies. We assist our patients through our Medication Assistance Program, and we participate in free drug programs through Pfizer, Astra Zeneca, and other companies. We have relationships with several other community entities for information and referrals that will benefit our patients. We also have a strong relationship with our two hospitals in our service area that benefit our patients in need of family planning services such as sterilization.

Our fifteen member governing board meets monthly to approve all required items on the agenda. These include monthly program and financial reports, scope of services, hours of operations, sliding fee scales, annual policies approval, and grant approvals. The board subcommittees for compliance, finance, executive, membership and bylaws, and other committees as set forth in our bylaws also meet in addition to the monthly meetings. A majority of the board members are consumers of our clinic services.

2. Organizational structure, lines of authority, and billing systems

Organizational Structure and lines of authority: The Chief Executive Officer is directly hired by the governing board, and is annually evaluated by the board members. The chief business officer, chief medical officer, chief information officer, chief operating officer, and other senior administrators report to the CEO. The attached organizational chart illustrates the relationships and lines of authority. The clinic operations are also supported by our robust compliance and performance improvement committee that oversees all clinical quality aspects of our operation, led by our QI administrator, and supervised by our chief medical officer who also spends a part of his time as our physician provider. The chief medical officer reports to the CEO as well as directly to the governing board.

Management systems

Administrative: See narrative above and the organizational chart that illustrates our administrative structure that includes clinical, finance, HR, and IT.

Compliance: BVCAA monitors service delivery through a strong Quality Improvement (QI) program. The QI improvement is structured through the Compliance and Performance Improvement Committee, whose members oversee quality improvement as well as risk reduction activities including credentialing of all licensed and certified staff, safety training of all staff, and other matters. The committee and the Medical Peer Review committee maintain standing orders and standards of care, and other clinical policies and procedures. All policies are placed after approval on our clinic website for ease of access for our providers and staff.

Staff development and training: The development and training includes CMEs for providers and training for all staff. The agency has invested in space and a development and training team that has implemented systems and checks in place for assessing new hires and monitoring / evaluating on going.

Financial: We have a robust financial system (Abila / MIP Sage financial software and ADP payroll processing software) that provides accurate revenue and expenditure and balance sheet reports to the governing board each month for approval. System reports also include all key financial ratios that reflect the financial health of the agency. The revenue and expenditures are reported by each program / funding source. Systems are set up in compliance with the regulations and rules as required by OMB and HHSC. Annual independent audit is conducted after the agency fiscal year close out.

E.H.R. System: All our clinic sites are operated with eClinical Works Electronic Health Record software system. The system along with a bridge software provides reports that the compliance committee utilizes for monitoring all our clinical measures.

3. Key Staff Resumes

4. Experience, knowledge, and expertise in family planning and women's health services

BVCAA has been providing family planning services for over thirty years, well before our organization became a federally qualified health center grantee in 2002. We have provided family planning services to clients in Brazos, Burleson, Grimes, Leon, Madison, Robertson, Washington counties, and more recently Waller County. We have experience in providing comprehensive outpatient medical services as FQHC clinic sites. Our service volume for family planning services alone has averaged over 3,200 unduplicated patients for more than nearly a decade, while our overall patient base is 40,000 unduplicated patients across the Brazos Valley. We have provided family planning services under the Title programs (V, X, and XX) as well as under Family Planning Medicaid, and Women's Health (WHP). Services included long acting methods in house and sterilization through contract providers. We are currently certified WHP providers.

Our 'average' clinical and administrative team member experience in overseeing family planning programs is over a decade. The clinic operations administrator along with her nursing staff have experience in developing and setting policies and procedures that follow the rules and regulations consistent with state and federal laws. Our family planning program has passed multiple DSHS audits. With the 2009-2010 implementation of Electronic Health Records system, our ability to do chart audits and track outcomes has improved. We have experience in providing family planning education within clinic setting as well as through outreach in to the community. Our family planning program has been delivered in full time, comprehensive clinic settings with physicians including OBGYN and women's health nurse practitioners. We have a performance improvement team that conducts chart audits to ensure quality. The team also ensures staff development and training is in place for new hires and conducts skill check offs before the new staff start in his or her respective position.

5. Experience in administering comprehensive health care

Administering comprehensive health care: BVCAA, Inc has been providing comprehensive health care since 2002 when it became a Federally Qualified Health Center. These services include adult and pediatric primary care (i.e sick visits, well child exams, well woman/man exams, physicals), chronic disease care, immunizations, and laboratory and screening tests. Other services include a pharmacy and dental services. Services not provided are referred to other entities in the community. Comprehensive outpatient clinical care is provided in eight locations across Brazos Valley, with sites in Brazos, Burleson (New access points), Grimes, Leon, Madison, and Robertson Counties. As FQHCs, we monitor more than a dozen required clinical outcomes of our patients as required by Health Resources and Services Administration (HRSA). We have electronic health records in all locations and we are getting ready to participate in

meaningful use. These capabilities improve the quality of care provided to the family planning clients of our clinics.

We are current contractors of family planning and we receive funding by fee for service as well as by cost reimbursement methodology. We therefore have experience in preparing and submitting monthly vouchers and we have experience in submitting billings for our fee for service components as well as for Medicaid / women's health. We have current active Medicaid numbers for all our sites. Our chief financial officer and our chief accountant are well versed in setting up accounting systems for tracking revenues and expenditures and posting all activities with unique general ledger codes. We have been successfully submitting family planning billings for over a decade.

Referral systems and sources: An on-site case manager assists in connecting patients to referral sources. Our electronic health record allows the provider to determine the type of referral needed and then send the referral to the case manager. The case manager reviews the request, calls the patient to set up the referral appointment. The case manager also may inform the patient of cost of referral services and how payment is to be applied for those services. The case manager maintains notes in the electronic health record regarding the status of the referral. Referral sources include ENT, cardiologist, imaging services, dermatologist, urologist, and diagnostic and treatment services for breast and cervical cancer.

6. Subcontracting Background

We have always provided core services with our own physicians, midlevel practitioners, and support staff, as well as directly hired executive staff. Subcontracting involved only ancillary services such as lab outside of our clia waiver limited lab scope, imaging, and inpatient services.

A. Experience subcontracting with other agencies/providers:

We do not subcontract the outpatient medical visit services. We provide those with our own physicians, nurse practitioners, Physician Assistants, Dentists, Dental Hygienist, LPCs, etc, along with our own clinical and support staff.

We subcontract for ancillary services such as lab, X ray. We participate, through our Texas Association of Community Health Centers, group purchasing for lab, pharmaceuticals, and supplies. We also subcontract for billing services and for credentialing all our licensed and certified staff with a local agency that is HUB certified and women owned. The billing company is well versed in our electronic health record system eClinical Works, which we critically need for billing.

B. Experience in developing Letters of Agreement and negotiating with subcontractors:

We have developed letters of agreement for specialty care such as podiatry, physical therapy, cardiology, etc. We have contractual agreements for sterilization services. We have agreements with hospitalists for inpatient services.

For other services such as case management, social service assistance, we work through our own intra-agency system, since we are a Community Action agency and we have a broad array of

services outside of outpatient medical – for services such as case management, utility assistance, weatherization, and WIC.

C. Experience in performing program monitoring of subcontractors, including monitoring of professional and clinical services:

We have experience in monitoring of subcontractors, for e.g. Billing and credentialing. We do annual monitoring by statistical sampling of appropriate charts and we have a comprehensive checklist of items for the audit.

D. Experience in providing technical assistance to subcontractors, including budget development and management:

We have no opportunity or need to do this service, since we provide all primary and preventive outpatient care with our own employed providers and support staff.

We employ our own providers – we assess their performance through our board approved medical peer review process, overseen by our Chief Medical Officer. We also have provider dash boards that monitor key clinical measures on the individual providers.

E. Staff position(s) that will be responsible for monitoring subcontractors and what qualifications will be required:

Our Compliance Director and our Physician - Chief Medical Officer are primarily responsible for monitoring of the subcontractors, though our compliance and performance improvement committee.

F. Staff positions anticipated for monitoring professional and clinical subcontractors:

We do not anticipate any such new staff positions.

G.. Policies and procedures for monitoring subcontractors that provide direct client services:

We do not have any subcontractors that provide direct client services. We provide them with our employed providers and support staff.

H.. Staff position(s) that are anticipated for providing training and technical assistance to subcontractors on data collection, data submission, and data quality improvement.

As stated above, the staff that provides care are our own employed providers and support staff. Staff is trained during the new employee orientation and then followed up with skills check off for his / her respective position by the staff training nurse coordinator.

Our existing staff will collect data and analyze them at provider specific level and clinic specific level for process and clinical measures. We use our E.H.R. system as well as a software for data collection, analysis, and reporting called BridgeIT. We utilize these data for quality improvement. Data are presented in our monthly Compliance and Performance Improvement meeting, and summary of results also presented to the board by our Chief Medical Officer.

Internal controls: Includes a system of organizational and human controls in place to safeguard the assets of BVCAA, Inc. and ensures business is conducted in an ethical manner.

Financial Management Policies: To report program outlays and income on accrual basis, and according to the federal regulations, all sources and uses of the funds are identified as per Title 45 code of Federal Regulations Subpart 74.61(b). A computerized financial tracking system, namely Grants Management System (GMS) from a company in Washington D.C., is utilized for tracking all revenues and expenses categories specific to each project of the agency. This system has been upgraded to give more detailed reports to the board.

Policies related to assets, liabilities, and fund balances: Includes methods of maintaining different asset classes. **Other policies:** Includes cost allocation and estimating policies, property management, and compensation policies. A Financial Status Report (FSR), reconciliation, is conducted for each program. GMS reports include expense level specific, project specific and companywide specifics.

g. Program budget design, implementation, and monitoring:

A financial management system tracks revenues and expenditures versus budgets for each program in the agency by program codes and expenditure codes. Outputs from this system are monitored closely by the key administrators from program and fiscal departments of the agency. A unique program code and a funding code will be set up in our financial system of tracking. All revenues and expenditures pertaining to this program will be tracked through those codes, and the system generated reports will be run each month. Reimbursement request will be made after the eligible expenses pertaining to the program are incurred.

Quality Assurance / Quality Improvement

a. **QI Process / Management:** The Compliance and Performance Improvement Committee (CPIC) is responsible for the development, appropriate revision and implementation of the BVCAA's Quality Improvement Plan.

The CPIC Committee consists of the Medical Director, Dental Director, Director of Nursing, Chief Operations Officer, Practice Management Officer, Director of Compliance and Clinical Effectiveness, and Safety Officer. It also includes representation from administration and finance department.

b. **Role of MD, surveys, systems, corrective actions...**

1) **Medical Director:** Leads medical peer review (provider quality assurance), updates standards of care, provides services and is responsible for supervision of physician and midlevel practitioners, implementation of standards of care, risk management, and promoting performance improvement activities. The Medical Director / Chief Medical Officer also provides leadership for the CPIC committee.

- 2) **QI Activities:** The gathering of information is done in the performance of the monitors. The information gathered is analyzed and performance improvement plans are generated from this information. Department Directors or their designees with the Director of Staff Development and Performance Improvement are responsible for identifying findings that are unacceptable and developing a plan of correction for that problem. The plan of correction, interventions and the outcome is documented.

Frequency: The CPIC committee meets monthly. Audits are conducted every quarter. Some measures are done through sample 70 chart audits, others are done for the total universe of the patient base in our electronic health records system.

- 3) **Activites to ensure corrective action and follow up:** The use of the Plan Do Study Act (PDSA) process is encouraged to resolve these issues. When changes are made in the organization, an integral part of the change is the assessment of current criteria for each funding source involved, policies, procedures, protocols and standing physician orders to ensure that all documents and processes remain in agreement and are current.
- 4) **Tracking patient satisfaction and frequency:** Formal and informal means are used to collect data on patient satisfaction. Annual survey questionnaires are designed and modified each year, to include any changes that may have taken place and to ensure that it has no adverse effect on patient satisfaction. The questionnaires are comprehensive, in English and Spanish. PDSA cycles are run to correct specific problems identified in the survey results. Client surveys are conducted each month in all our clinic sites and analyzed for trends.
- 5) **Monitoring and reporting adverse outcomes:** Indicators are established through the development of an annual plan. Mandatory indicators may include those required by funding sources, contracts, laws and regulations. In addition, adverse outcomes are spotted during our monthly reports given in our CPIC meeting. Trends are graphed and negative trends are acted upon. Our monitoring and reporting is quite comprehensive. We monitor a large number of measures due to our participation in Medicaid Meaningful use, Patient Centered Medical Home designation, etc. Selected indicators are those that the organization identifies and selects as unique or significant for the organization and that will provide opportunities for performance improvement. Special indicators are those issues or indicators that are reviewed or investigated in response to an unusual event within the organization..
- 6) **Protocol Development Process:** The Compliance and Performance Improvement Committee hears the agency's monitor reports, proposed plans of correction and the outcome of those plans. This committee works together to ensure all elements of processes are addressed in plans of correction to ensure that process improvements are made within the organization without disruption of the organization. Standing Delegate Orders and protocols are approved by the Chief Medical Officer after review and ensuring they are consistent with the required and recommended practices.

The facility is handicap-accessible and ADA-compliant. The health center has adequate exam rooms and waiting room space in accordance with standard industry practice and guidelines. The clinic is clearly marked with signage stating it is a BVCAA health care center providing preventive and primary medical health care and family planning services, as well as other programs. BVCAA hires bilingual staff and has a 24 / 7-telephone translation line for languages not spoken in the health center. The Bryan-College Station Community Health Center has late hours during the week. The hours are 7:30 a.m. to 7:00 p.m. Thursdays, and 7:30 a.m. to 5 p.m. Monday to Wednesday and Friday. A 24 / 7 physician emergency agency is on call to work with patients on weekends and after hours.

b. Staff trainings

Staff training will take place in house and also with those provided by the funding agency in Austin. At least one front office / eligibility / outreach staff and one clinical staff will attend the trainings in Austin. Additional staff trainings will be on our clinic premises, provided by our own subject matter experts. Trainings will be delivered and monitored by our Training and Development Team. We will raise awareness of the new State Program within our current patient population. Outreach efforts will include providing HTWP information via radio spots, billboards, local television, flyers, and via community presentations.

Community outreach will inform the community residents of the State's investment of resources to ensure that women of child bearing age have access to quality healthcare.

Long Acting Reversible Contraception (LARC) Usage

- a. *LARC methods to be provided:*** HTWP patients in all of our clinic sites will have access to LARCs, but they will be provided at two of our seven clinic sites listed in the clinic forms, namely at Navasota and College Station, where the physician / midlevel providers are well trained in providing LARC methods. They are being provided currently under our existing family planning programs. LARCs methods available to clients will be implanted, e.g. Nexplanon as well as in utero, e.g. Minrena, Paraguard.

- b. *Efforts to educate clients about LARC:*** DSHS Pamphlets titled "Birth Control Your Choices" are given to patients in English and Spanish. Providers interview the patients, look at their overall health, age, and lifestyle, to determine if LARC is appropriate, preferred, and indicated.
- c. *Professional development for staff related to LARC utilization:*** Providers attend contraceptive conference offered by Texas Department of State Health Services. They seek Continuous Medical Education (CMEs) for women's health including LARC updates. They also undergo inhouse training and education utilizing arm and insertion models.

- a. Geographic boundaries:* Our service area for this project includes women in the following counties: Brazos, Burleson, Grimes, Leon, Madison, Robertson, Wahington, and Waller County. We also currently serve patients from other adjacent counties, but not in large volumes. Brazos County is urban, while all other counties are semi rural or rural. The service area is spread out into over 5,564 sq. miles. The counties are not industrialized. They are more agricultural. Brazos County is the home of Teks A&M University.

Most of the counties per capita are around \$ 22,000. Of the total 343,425 residents in our service area, 44.8% are below 200% of federal poverty level. The unemployment rates among residents in our service area range from 3.4 to 5.4%. Brazos

County, the most population dense of our service area has the Texas A&M University as the largest employer. Other rural counties in our service area are mostly agricultural, with a few manufacturing plants. Nearly 80% on average graduate from highschool.. Labor force participation range from 37% to 63%, while female participation in labor force ranged from 48% to 60%.

- d. Community wide health status:** There are 73,898 individuals without health insurance in our service area defined above. The percent uninsured range from 29% to 22% in the different counties in our service are, with most of them in the 27% range. The percent receiving prenatal care in their first trimester is lower than that of state, around 60% for most of our service area. There are higher than state average chlamydia rates in some of our counties. Deaths by cancer and heart disease are higher than that of state in many of our counties.

2. Priority Population

Our priority population is HTW eligible women 15 to 44 years of age with incomes below 200% of federal poverty level in the service area defined below.

- e. Geographic service area:** The geographic service area is the same as that described above and in Form B: Brazos, Burleson, Grimes, Leon, Madison, Robertson, Waller, and Washington Counties. We have clinic sites in all of those counties, except Washington. But, we provide services to a majority of the county's uninsured and underinsured in our other clinic sites. We have been providing family planning and other health care services to those residents for over thirty years.

- f. Characteristics of priority population:** The economically disadvantaged, priority population percent of African American by race or percent of Latino by ethnicity is higher than that in general population. While the percent below poverty ranges from 14 to 29% for residents at large in our service area, the poverty level range for women is higher: 16-31%. It further increases for Hispanic latinos: 16-42% and 27-48% for African Americans.

- g. Health Status of priority population:** Health indicators at the county level are not available for priority population. However, trends indicate a poorer health status for the priority population. Needs assessment surveys conducted in our community indicated hypertension, obesity, and depression / anxiety as some of the major areas of concern. Other concerns were lack of avenues for youth such as community centers.

- h. Current population served:** On average, we have been provide over 3,200 unduplicated women in need family planning services across all our clinic sites, through our family planning and WHP programs. We currently serve annually on average 1300-1500 WHP clients.

3. Gaps in resources and barriers to be addressed

Affordable access to timely healthcare was a need indicated in the health surveys, especially for the uninsured, priority population, those with incomes below 200% of federal poverty level. Access to specialty care was also indicated. Transportation was one of the unmet needs indicated in the health surveys. We will address the access barriers by providing timely family planning and women's health services to the priority population in our multiple clinics in our service area.

Eligibility staff will receive in-person training with Dora Vasquez and Cas Perez prior to program launch on HTW program objectives, eligibility requirements, application process / eligibility process, and HTW services. Eligibility staff will receive a test created by Dora and Cas at the end of training to assess their understanding of the program. If they do not score a 100%, they will be retrained in the areas needing improvement. Monthly eligibility audits are conducted as an eligibility team to ensure staff understanding of the program and that they are screening according to HHSC guidelines.

3. Describe how training needs assessments are conducted. Specify how the assessment is used to generate a staff development plan. Specify how training activities for staff are tied to quality management review findings.

New employees' training needs will be assessed before and during New Employee Orientation. Pre-employment tools will be utilized to determine the new hire's level of knowledge and skills and develop a training plan. Post-training assessments and competency checklists will determine if the new hire is ready to transition to their site.

Current staffs' training needs will be assessed and/or identified through a variety mechanisms including skill based observational audits, job description reviews, manager interviews, variance reports, quality assurance audits, annual competency assessments, etc. Any knowledge, skills, or performance gaps will be addressed in a written training plan. Training plans will be developed in conjunction with subject matter experts and clinic/practice managers. In order to evaluate the effectiveness of the training, a reassessment method and timeline will be including in the training plan. The major objective is to ensure we have met the staff development needs of the employees resulting in increased efficiency and quality thus positively impacting service to our patients.

Training topics will include, but are not limited: Healthy Texas Women, Intimate Partner Violence, Civil Rights Training, and others listed in the Staff Development Calendar.

4. Describe procedures and documentation for staff annual performance review. Specify how the staff development plan incorporates review outcomes to further develop knowledge, skills and abilities to provide HTW services.

Performance reviews will be conducted annually for staff across HealthPoint. Leaders will use the Performance Development and Evaluation form to document on eleven areas including quantity of work, quality of work, attendance, initiative, leadership, cooperation and customer service, diversity, etc. An annual competency assessment (skills and knowledge) is completed for medical support staff (CNA, MA, etc) and front office staff. Identified opportunities for improvement may result in a training plan and/or become a staff development topic to address across HealthPoint.

When Leaders and/or Training Department identify a performance or knowledge gap, a Training Request Form will be completed. The Training Department will create a Performance Improvement Plan and additional training will be conducted with the staff member. SMEs may be utilized to conduct or assist with training. After the training has been completed, the staff member will be required to demonstrate knowledge and skills using the competency checklist and/or online assessment.

NOTE: If specific LARC methods are provided through referral only, respondent must include this information in the Staff Development Plan and respondent will be exempted from the training requirements for that specific LARC method.

Please see the training calendar that includes LARC, since we will be providing it in house.

DEFINITIONS

For the purposes of this certification the following terms are defined as follows:

The term "affiliate" means:

An individual or entity that has a legal relationship with another entity, which relationship is created or governed by at least one written instrument that demonstrates:
common ownership, management, or control;
a franchise; or

the granting or extension of a license or other agreement that authorizes the affiliate to use the other entity's brand name, trademark, service mark, or other registered identification mark.

The "written instruments" referenced above may include a certificate of formation, a franchise agreement, standards of affiliation, bylaws, or a license, but do not include agreements related to a physician's participation in a physician group practice, such as a hospital group agreement, staffing agreement, management agreement, or collaborative practice agreement.

The term "Promote" means advancing, furthering, advocating, or popularizing elective abortion by, for example: taking affirmative action to secure elective abortion services for a HTW client (such as making an appointment, obtaining consent for the elective abortion, arranging for transportation, negotiating a reduction in an elective abortion provider fee, or arranging or scheduling an elective abortion procedure); however, the term does not include providing upon the patient's request neutral, factual information and nondirective counseling, including the name, address, telephone number, and other relevant information about a provider;

furnishing or displaying to a HTW client information that publicizes or advertises an elective abortion service or provider;
or

using, displaying, or operating under a brand name, trademark, service mark, or registered identification mark of an organization that performs or Promotes elective abortions.

My name is Eric Todd. I am the provider or, if the provider is an organization, I am the provider's (title or position) Chief Executive Officer. I am of sound mind, capable of making this certification, and I am personally acquainted with the facts stated here. If I am representing an organizational provider, I am authorized to make this certification on the provider's behalf. I understand that, under Texas Human Resources Code, Section 32.024(c-1) and relating program rules in the Texas Administrative Code, I am not qualified to participate in HTW; or to bill the program for services if I perform or Promote Elective Abortions, or if I am an affiliate of an entity that performs or Promotes Elective Abortions.

By checking the boxes under each statement below, I affirm that each of the following statements is true. I understand that my failure to mark each of the statements will be regarded as my representation that the statement is false:

 - b. The governing board or other body that controls me, or any of my organization's subcontractors, does not have any board members who are also members of the governing board of an entity that performs or Promotes Elective Abortions;

In addition, I understand and acknowledge that:

- If I fail to complete and submit this certification, I will be disqualified from the HTW Program and the Texas Health and Human Services Commission (HHSC) or its designee (henceforth, "HHSC") will deny any claims I submit for HTW services.
- If, after I submit this signed certification, I, or any of my organization's subcontractors, perform, agree to perform, or Promote Elective Abortions, or I, or any of my organization's subcontractors, become an Affiliate of, or agree to affiliate with, an entity that performs or Promotes Elective Abortions, I will notify HHSC at least 30 calendar days before I, or any of my organization's subcontractors, perform or Promote an Elective Abortion or become an Affiliate with an entity that does so. CERTIFICATION
REGARDING DEBARMENT, SUSPENSION, INELIGIBILITY
AND VOLUNTARY EXCLUSION FOR COVERED CONTRACTS

Federal Executive Orders 12549 and 12689 require the Texas Health and Human Services Commission (HHSC) to screen each covered potential contractor to determine whether each has a right to obtain a contract in accordance with federal regulations on debarment, suspension, ineligibility, and voluntary exclusion. Each covered contractor must also screen each of its covered subcontractors.

In this certification "contractor" refers to both contractor and subcontractor; "contract" refers to both contract and subcontract.

By signing and submitting this certification the potential contractor accepts the following terms:

1. The certification herein below is a material representation of fact upon which reliance was placed when this contract was entered into. If it is later determined that the potential contractor knowingly rendered an erroneous certification, in addition to other remedies available to the federal government, the Department of Health and Human Services, United States Department of Agriculture or other federal department or agency, or the HHSC may pursue available remedies, including suspension and/or debarment.
2. The potential contractor will provide immediate written notice to the person to which this certification is submitted if at any time the potential contractor learns that the certification was erroneous when submitted or has become erroneous by reason of changed circumstances.
3. The words "covered contract", "debarred", "suspended", "ineligible", "participant", "person", "principal", "proposal", and "voluntarily excluded", as used in this certification have meanings based upon materials in the Definitions and Coverage sections of federal rules implementing Executive Order 12549. Usage is as defined in the attachment.
4. The potential contractor agrees by submitting this certification that, should the proposed covered contract be entered into, it will not knowingly enter into any subcontract with a person who is debarred, suspended, declared ineligible, or voluntarily excluded from participation in this covered transaction, unless authorized by the Department of Health and Human Services, United States Department of Agriculture or other federal department or agency, and/or the HHSC, as applicable.

Do you have or do you anticipate having subcontractors under this proposed contract?..... ☐ Yes ☒ No

5. The potential contractor further agrees by submitting this certification that it will include this certification titled "Certification Regarding Debarment, Suspension, Ineligibility, and Voluntary Exclusion for Covered Contracts" without modification, in all covered subcontracts and in solicitations for all covered subcontracts.
6. A contractor may rely upon a certification of a potential subcontractor that it is not debarred, suspended, ineligible, or voluntarily excluded from the covered contract, unless it knows that the certification is erroneous. A contractor must, at a minimum, obtain certifications from its covered subcontractors upon each subcontract's initiation and upon each renewal.
7. Nothing contained in all the foregoing will be construed to require establishment of a system of records in order to render in good faith the certification required by this certification document. The knowledge and information of a contractor is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.
8. Except for contracts authorized under paragraph 4 of these terms, if a contractor in a covered contract knowingly enters into a covered subcontract with a person who is suspended, debarred, ineligible, or voluntarily excluded from participation in this transaction, in addition to other remedies available to the federal government, Department of Health and Human Services, United States Department of Agriculture, or other federal department or agency, as applicable, and/or the HHSC may pursue available remedies, including suspension and/or debarment.

CERTIFICATION REGARDING DEBARMENT, SUSPENSION, INELIGIBILITY AND VOLUNTARY EXCLUSION FOR COVERED CONTRACTS

Indicate in the appropriate box which statement applies to the covered potential contractor:

☒ The potential contractor certifies, by submission of this certification, that neither it nor its principals is presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from participation in this contract by any federal department or agency or by the State of Texas.

CERTIFICATION REGARDING FEDERAL LOBBYING
(Certification for Contracts, Grants, Loans, and Cooperative Agreements)

PREAMBLE

Federal legislation, Section 319 of Public Law 101-121 generally prohibits entities from using federally appropriated funds to lobby the executive or legislative branches of the federal government. Section 319 specifically requires disclosure of certain lobbying activities. A federal government-wide rule, "New Restrictions on Lobbying", published in the Federal Register, February 26, 1990, requires certification and disclosure in specific instances and defines terms:

Covered Awards and Subawards--Contracts, grants, and cooperative agreements over the \$100,000 threshold need (1) certifications, and (2) disclosures, if required. (See certification term number 2 concerning disclosure.)

Lobbying--To lobby means "to influence or attempt to influence an officer or employee of any agency (federal), a member of Congress, an officer or employee of Congress, or an employee of a member of Congress in connection with any of the following covered federal actions:

- the awarding of any federal contract,
- the making of any federal grant,
- the making of any federal loan,
- the entering into of any cooperative agreement, and
- the extension, continuation, renewal, amendment, or modification of any federal contract, grant, loan or cooperative agreement".

Limited Use of Appropriated Funds Not Prohibited--The prohibition on using appropriated funds does not apply to activities by one's own employees with respect to:

- liaison activities with federal agencies and Congress not directly related to a covered federal action;
- providing any information specifically requested by a federal agency or Congress;
- discussion and/or demonstration of products or services if not related to a specific solicitation or a covered action; or
- professional and technical services in preparing, submitting or negotiating any bid, proposal or application for a federal contract, grant loan or cooperative agreement or for meeting legal requirements conditional to receipt of any federal contract, grant, loan or cooperative agreement. (The prohibition also does not apply to such services provided by nonemployees for the same purposes.)

Professional and Technical Services--Professional and technical services shall be advice and analysis directly applying any professional or technical expertise. Note that the professional and technical services exemption is specifically limited to the merits of the matter.

Other Allowable Activities--The prohibition on use of federally appropriated funds does not apply to influencing activities not in connection with a specific covered federal action. These activities include those related to legislation and regulations for a program versus a specific covered federal action.

Funds Other Than Federal Appropriations--There is no federal restriction on the use of nonfederal funds to lobby the federal government for contracts, grants, and cooperative agreements.

7.02 Access to records, books, and documents

In addition to any right of access arising by operation of law, Grantee and any of Grantee's affiliate or subsidiary organizations, or Subcontractors will permit the System Agency or any of its duly authorized representatives, as well as duly authorized federal, state or local authorities, unrestricted access to and the right to examine any site where business is conducted or Services are performed, and all records, which includes but is not limited to financial, client and patient records, books, papers or documents related to this Contract. If the Contract includes federal funds, federal agencies that will have a right of access to records as described in this section include: the federal agency providing the funds, the Comptroller General of the United States, the General Accounting Office, the Office of the Inspector General, and any of their authorized representatives. In addition, agencies of the State of Texas that will have a right of access to records as described in this section include: the System Agency, HHSC, HHSC's contracted examiners, the State Auditor's Office, the Texas Attorney General's Office, and any successor agencies. Each of these entities may be a duly authorized authority. If deemed necessary by the System Agency or any duly authorized authority, for the purpose of investigation or hearing, Grantee will produce original documents related to this Contract. The System Agency and any duly authorized authority will have the right to audit billings both before and after payment, and all documentation that substantiates the billings. Grantee will include this provision concerning the right of access to, and examination of, sites and information related to this Contract in any Subcontract it awards.

7.03 Response/compliance with audit or inspection findings

- a. Grantee must act to ensure its and its Subcontractor's compliance with all corrections necessary to address any finding of noncompliance with any law, regulation, audit requirement, or generally accepted accounting principle, or any other deficiency identified in any audit, review, or inspection of the Contract and the goods or services provided hereunder. Any such correction will be at Grantee or its Subcontractor's sole expense. Whether Grantee's action corrects the noncompliance will be solely the decision of the System Agency.
- b. As part of the Services, Grantee must provide to HHSC upon request a copy of those portions of Grantee's and its Subcontractors' internal audit reports relating to the Services and Deliverables provided to the State under the Contract.

7.04 SAO Audit

Grantee understands that acceptance of funds directly under the Contract or indirectly through a Subcontract under the Contract acts as acceptance of the authority of the State Auditor's Office (SAO), or any successor agency, to conduct an audit or investigation in connection with those funds. Under the direction of the legislative audit committee, an entity that is the subject of an audit or investigation by the SAO must provide the SAO with access to any information the SAO considers relevant to the investigation or audit. Grantee agrees to cooperate fully with the SAO

or its successor in the conduct of the audit or investigation, including providing all records requested. Grantee will ensure that this clause concerning the authority to audit funds received indirectly by Subcontractors through Grantee and the requirement to cooperate is included in any Subcontract it awards.

7.05 Confidentiality

Any specific confidentiality agreement between the Parties takes precedent over the terms of this section. To the extent permitted by law, Grantee agrees to keep all information confidential, in whatever form produced, prepared, observed, or received by Grantee. The provisions of this section remain in full force and effect following termination or cessation of the services performed under this Contract.

7.06 Public Information Act

Information related to the performance of this Contract may be subject to the PIA and will be withheld from public disclosure or released only in accordance therewith. Grantee must make all information not otherwise excepted from disclosure under the PIA available in portable document file (".pdf") format or any other format agreed between the Parties.

- b. Requiring the Grantee to take specific corrective actions in order to remain in compliance with term of the Contract;
- c. Recouping payments made to the Grantee found to be in error;
- d. Suspending, limiting, or placing conditions on the continued performance of the Project;
- e. Imposing any other remedies authorized under this Contract; and

8.03 Termination for Cause

Except as otherwise provided by the U.S. Bankruptcy Code, or any successor law, the System Agency may terminate the Contract, in whole or in part, upon either of the following conditions:

a. Material Breach

The System Agency will have the right to terminate the Contract in whole or in part if the System Agency determines, at its sole discretion, that Grantee has materially breached the Contract or has failed to adhere to any laws, ordinances, rules, regulations or orders of any public authority having jurisdiction and such violation prevents or substantially impairs performance of Grantee's duties under the Contract. Grantee's misrepresentation in any aspect of Grantee's

Solicitation Response, if any or Grantee's addition to the Excluded Parties List System (EPLS) will also constitute a material breach of the Contract.

b. Failure to Maintain Financial Viability

The System Agency may terminate the Contract if, in its sole discretion, the System Agency has a good faith belief that Grantee no longer maintains the financial viability required to complete the Services and Deliverables, or otherwise fully perform its responsibilities under the Contract.

8.04 Equitable Settlement

Any early termination under this Article will be subject to the equitable settlement of the respective interests of the Parties up to the date of termination.

Grantee will provide evidence of insurance as required under this Contract, including a schedule of coverage or underwriter's schedules establishing to the satisfaction of the System Agency the nature and extent of coverage granted by each such policy, upon request by the System Agency. In the event that any policy is determined by the System Agency to be deficient to comply with the terms of this Contract, Grantee will secure such additional policies or coverage as the System Agency may reasonably request or that are required by law or regulation. If coverage expires during the term of this Contract, Grantee must produce renewal certificates for each type of coverage.

These and all other insurance requirements under the Contract apply to both Grantee and its Subcontractors, if any. Grantee is responsible for ensuring its Subcontractors' compliance with all requirements.

9.03 Legal Obligations

ANY BREACH OR VIOLATION OF A STATUTE, ORDINANCE, GOVERNMENTAL REGULATION, STANDARD, RULE, OR BREACH OF CONTRACT BY GRANTEE, ANY AGENT, EMPLOYEE, SUBCONTRACTOR, OR SUPPLIER OF GRANTEE, OR ANY THIRD PARTY UNDER THE CONTROL OR SUPERVISION OF GRANTEE, IN THE EXECUTION OR PERFORMANCE OF THIS CONTRACT; OR**
- c. EMPLOYMENT OR ALLEGED EMPLOYMENT, INCLUDING CLAIMS OF DISCRIMINATION AGAINST GRANTEE, ITS OFFICERS, OR ITS AGENTS; OR**
- d. WORK UNDER THIS CONTRACT THAT INFRINGES OR MISAPPROPRIATES ANY RIGHT OF ANY THIRD PERSON OR ENTITY BASED ON COPYRIGHT, PATENT, TRADE SECRET, OR OTHER INTELLECTUAL PROPERTY RIGHTS.**

GRANTEE WILL COORDINATE ITS DEFENSE WITH THE SYSTEM AGENCY AND ITS COUNSEL. THIS PARAGRAPH IS NOT INTENDED TO AND WILL NOT BE CONSTRUED TO REQUIRE GRANTEE TO INDEMNIFY OR HOLD HARMLESS THE STATE OR THE SYSTEM AGENCY FOR ANY CLAIMS OR LIABILITIES RESULTING SOLELY FROM THE GROSS NEGLIGENCE OF THE SYSTEM AGENCY OR ITS EMPLOYEES. THE PROVISIONS OF THIS SECTION WILL SURVIVE TERMINATION OF THIS CONTRACT.

9.06 Assignments

Grantee may not assign all or any portion of its rights under, interests in, or duties required under this Contract without prior written consent of the System Agency, which may be withheld or granted at the sole discretion of the System Agency. Except where otherwise agreed in writing by the System Agency, assignment will not release Grantee from its obligations under the Contract.

Grantee understands and agrees the System Agency may in one or more transactions assign, pledge, or transfer the Contract. This assignment will only be made to another State agency or a non-state agency that is contracted to perform agency support.

9.07 Relationship of the Parties

9.09 Governing Law and Venue

This Contract and the rights and obligations of the Parties hereto will be governed by, and construed according to, the laws of the State of Texas, exclusive of conflicts of law provisions. Venue of any suit brought under this Contract will be in a court of competent jurisdiction in Travis County, Texas unless otherwise elected by the System Agency. Grantee irrevocably waives any objection, including any objection to personal jurisdiction or the laying of venue or based on the grounds of forum non conveniens, which it may now or hereafter have to the bringing of any action or proceeding in such jurisdiction in respect of this Contract or any document related hereto. Severability

If any provision contained in this Contract is held to be unenforceable by a court of law or equity, this Contract will be construed as if such provision did not exist and the non-enforceability of such provision will not be held to render any other provision or provisions of this Contract unenforceable.

Termination or expiration of this Contract or a Contract for any reason will not release either party from any liabilities or obligations in this Contract that the parties have expressly agreed will survive any such termination or expiration, remain to be performed, or by their nature would be intended to be applicable following any such termination or expiration, including maintaining confidentiality of information and records retention.

9.11 Force Majeure

9.13 Publicity

Except as provided in the paragraph below, Grantee must not use the name of, or directly or indirectly refer to, the System Agency, the State of Texas, or any other State agency in any media release, public announcement, or public disclosure relating to the Contract or its subject matter, including in any promotional or marketing materials, customer lists, or business presentations.

Grantee may publish, at its sole expense, results of Grantee performance under the Contract with the System Agency's prior review and approval, which the System Agency may exercise at its sole discretion. Any publication (written, visual, or sound) will acknowledge the support received from the System Agency and any Federal agency, as appropriate.

9.14 Prohibition on Non-compete Restrictions

The Contract constitutes the entire agreement of the Parties and is intended as a complete and exclusive statement of the promises, representations, negotiations, discussions, and other agreements that may have been made in connection with the subject matter hereof. Any

additional or conflicting terms in any future document incorporated into the Contract will be harmonized with this Contract to the extent possible by the System Agency.

9.17 Counterparts

This Contract may be executed in any number of counterparts, each of which will be an original, and all such counterparts will together constitute but one and the same Contract.

9.18 Proper Authority

ARTICLE II. GENERAL PROVISIONS

2.01 Controlling Order

Unless otherwise agreed, in the event of any conflict or contradiction between or among the provisions of the Contract, the provisions in the documents will control in the following order:

- a. The Signature Document;
- b. These Special Conditions;
- c. HHSC Uniform Terms and Conditions – Vendor;
- d. The Solicitation and any addendums, corrections, and clarifications; then
- e. Contractor’s Solicitation Response and any agreed to modifications.

2.02 Inducements

In awarding the Contract, the HHSC relies on Contractor’s assurances of the following:

- a. Contractor and its Subcontractors are established providers of the WSD described in the Solicitation and required under the Contract;
- b. Contractor and its Subcontractors have the skills, qualifications, expertise, financial resources, and experience necessary to perform the WSD in an efficient, cost-effective manner, with a high degree of quality and responsiveness.
- c. Contractor has performed similar WSD for other public or private entities;

2.03 Delegation of Authority

Whenever, by any provision of the Contract, any right, power, or duty is imposed or conferred on HHSC, the right, power, or duty so imposed or conferred is possessed and exercised by HHSC's Executive Commissioner unless such is delegated to duly appointed agents or employees of HHSC. HHSC's Executive Commissioner will reduce any delegation of authority to writing and provide a copy to Contractor on request. The authority delegated to Contractor by HHSC is limited to the terms of the Contract. Contractor may not rely upon implied authority and is not delegated authority under the Contract to:

2.04 Other System Agencies Participation in the Contract

In addition to providing the WSD specified for HHSC, Contractor agrees to allow other System Agencies the option to participate in the Contract under the same terms and conditions. Each System Agency that elects to obtain WSD under this section will issue a purchase or work order to Contractor, referring to, and incorporating by reference, the terms and conditions specified in the Contract.

System Agencies have no authority to modify the terms of the Contract. However, additional System Agency terms and conditions that do not conflict with the Contract, and are acceptable to the Contractor, may be added in a purchase or work order and given effect. No additional term or condition added in a purchase or work order issued by a System Agency can conflict with or diminish a term or condition of the Contract. In the event of a conflict between a System Agency's purchase or work order and the Contract, the Contract terms control.

2.05 Most Favored Customer

As authorized in the VUTC, each party to whom an assignment is made must assume all or any part of Contractor's interests in the Contract, the WSD, and any documents executed with respect to the Contract, including, without limitation, the assignor's obligation for all or any portion of the purchase payments, in whole or in part.

2.07 Cooperation with HHSC Vendors

At HHSC's request, Contractor will allow parties interested in responding to other HHSC solicitations to have reasonable access during normal business hours to the WSD, software, systems documentation, and site visits to the Contractor's facilities. Contractor may elect to have such parties inspecting the WSD, facilities, software or systems documentation to agree to use the information so obtained only in the State of Texas and only for the purpose of responding to the relevant HHSC solicitation.

2.08 Renegotiation and Reprocurement Rights

Notwithstanding anything in the Contract to the contrary, HHSC may at any time during the term of the Contract exercise the option to notify Contractor that HHSC has elected to renegotiate certain terms of the Contract. Upon Contractor's receipt of any notice under this section, Contractor and HHSC will undertake good faith negotiations of the subject terms of the Contract.

HHSC may at any time issue solicitation instruments to other potential contractors for performance of any portion of the WSD covered by the Contract, including services similar or comparable to the WSD, performed by Contractor under the Contract. If HHSC elects to procure the WSD, or any portion thereof, from another vendor in accordance with this section, HHSC will have the termination rights set forth in the VUTC.

2.09 Solicitation Errors

Contractor will not take advantage of any errors or omissions in the Solicitation or the resulting Contract. Contractor must promptly notify HHSC of any errors or omissions that are discovered. Failure to notify HHSC of any errors will constitute a waiver of those errors.

ARTICLE III. PROHIBITION AGAINST PERFORMANCE OUTSIDE OF THE UNITED STATES

3.01 Authority

HHSC is responsible for the development and implementation of Software and hardware to support HHSC programs, which are paid for in whole or in part with State and federal funds. Upon receipt of such notice, Contractor must promptly investigate the matter and, at HHSC's election, take appropriate action that may include removing the Contractor Agent from

Contractor will not be entitled to payment for WSD that is not authorized by a properly executed Contract amendment or modification, or through the express written authorization of HHSC.

Any changes to the Contract that results in a change to either the term, fees, or significantly impacting the obligations of the parties to the Contract must be effectuated by a formal Amendment to the Contract. Such Amendment must be signed by the appropriate and duly authorized representative of each party in order to have any effect.

6.02 Minor Administrative Changes

7.02 Access and Accommodation

In providing the access required by the VUTC for records and audits, Contractor will provide access to records, books, and documents in reasonable comfort and will provide any furnishings, equipment, or other conveniences necessary to enable complete and unfettered access to records, books, and documents to HHSC and any of its duly authorized representatives, as well as duly authorized federal, state or local authorities. Contractor will require Contractor Agents to provide comparable accommodations. Upon request, Contractor will provide copies of records, books, and documents free of charge to HHSC and any of its duly authorized representatives, as well as duly authorized federal, state or local authorities, including those the entities described in the VUTC.

If HHSC disputes payment of all or any portion of an invoice from Contractor, HHSC will notify the Contractor of the dispute and both Parties will attempt in good faith to resolve the dispute in accordance with these Special Conditions. HHSC will not be required to pay any disputed portion of a Contractor invoice unless, and until, the dispute is resolved. Notwithstanding any such dispute, Contractor will continue to perform the WSD in compliance with the terms of the Contract pending resolution of such dispute so long as all undisputed amounts continue to be paid to Contractor.

ARTICLE IX. CONFIDENTIALITY

9.01 Requests for Public Information

HHSC will, as permitted by law and as practicable considering HHSC's resources, notify Contractor of a request for disclosure of public information related to the Contract filed in accordance with the Texas Public Information Act, Texas Government Code Chapter 552 ("PIA"). In the event Contractor believes the requested information should be protected under the PIA, Contractor will comply with PIA requirements pertaining to that information and will provide HHSC with copies of all such documentation required to support its request for nondisclosure. Contractor must make public information not otherwise excepted from disclosure under the PIA available to HHSC at no additional charge to HHSC.

To the extent authorized under the PIA, HHSC will safeguard from disclosure information received from Contractor that Contractor believes to be confidential. Contractor must clearly mark each page of such information as "Contractor Confidential Information" and provide written notice to HHSC that it considers the information confidential in accordance with the PIA. Contractor's designation or marking of information in this manner does not act, and should not be construed, as an agreement or other consent by HHSC that such information is actually confidential pursuant to the PIA.

9.02 Consultant Disclosure

Contractor agrees that any consultant reports received by HHSC in connection with the Contract may be distributed by HHSC, in its discretion, to any other state agency and the Texas legislature. Any distribution may include posting on HHSC's website or the website of a standing committee of the Texas Legislature.

9.03 Other Confidential Information

HHSC prohibits the unauthorized disclosure of Other Confidential Information. Contractor and all Contractor Agents will not disclose or use any Other Confidential Information in any manner except as is necessary for the WSD or the proper discharge of obligations and securing of rights under the Contract. Contractor will have a system in effect to protect Other Confidential Information. Any disclosure or transfer of Other Confidential Information by Contractor, including information requested to do so by HHSC, will be in accordance with the Contract. If Contractor receives a request for Other Confidential Information, Contractor will immediately notify HHSC of the request, and will make reasonable efforts to protect the Other Confidential Information from disclosure until further instructed by the HHSC.

Contractor will notify HHSC promptly of any unauthorized possession, use, knowledge, or attempt thereof, of any Other Confidential Information by any person or entity that may become known to Contractor. Contractor will furnish to HHSC all known details of the unauthorized possession, use, or knowledge, or attempt thereof, and use reasonable efforts to assist HHSC in investigating or preventing the reoccurrence of any unauthorized possession, use, or knowledge, or attempt thereof, of Other Confidential Information.

HHSC will have the right to recover from Contractor all damages and liabilities caused by or arising from Contractor or Contractor Agents' failure to protect HHSC's Confidential Information as required by this section.

IN COORDINATION WITH THE INDEMNITY PROVISIONS CONTAINED IN THE VUTC, CONTRACTOR WILL INDEMNIFY AND HOLD HARMLESS HHSC FROM ALL DAMAGES, COSTS, LIABILITIES, AND EXPENSES (INCLUDING WITHOUT LIMITATION REASONABLE ATTORNEYS' FEES

AND COSTS) CAUSED BY OR ARISING FROM CONTRACTOR OR CONTRACTOR AGENTS FAILURE TO PROTECT OTHER CONFIDENTIAL INFORMATION. CONTRACTOR WILL FULFILL THIS PROVISION WITH COUNSEL APPROVED BY HHSC.

ARTICLE X. DISPUTES AND REMEDIES

10.01 Agreement of the Parties

The Parties agree that the interests of fairness, efficiency, and good business practices are best served when the Parties employ all reasonable and informal means to resolve any dispute under the Contract before resorting to formal dispute resolution processes otherwise provided in the Contract. The Parties will use all reasonable and informal means of resolving disputes prior to invoking a remedy provided elsewhere in the Contract, unless HHSC immediately terminates the Contract in accordance with the terms and conditions of the Contract.

Any dispute, that in the judgment of any Party to the Agreement, may materially affect the performance of any Party will be reduced to writing and delivered to the other Party within 10 business days after the dispute arises. The Parties must then negotiate in good faith and use every reasonable effort to resolve the dispute at the managerial or executive levels prior to initiating formal proceedings pursuant to the VUTC and Texas Government Code §2260, unless a Party has reasonably determined that a negotiated resolution is not possible and has so notified the other Party. The resolution of any dispute disposed of by agreement between the Parties will be reduced to writing and delivered to all Parties within 10 business days of such resolution.

10.02 Operational Remedies

The remedies described in this section may be used or pursued by HHSC in the context of the routine operation of the Contract and are directed to Contractor's timely and responsive performance of the WSD as well as the creation of a flexible and responsive relationship between the Parties. Contractor agrees that HHSC may pursue operational remedies for Items of Noncompliance with the Contract. At any time, and at its sole discretion, HHSC may impose or pursue one or more said remedies for each Item of Noncompliance. HHSC will determine operational remedies on a case-by-case basis which include, but are not, limited to:

- 1) Requesting a detailed Corrective Action Plan, subject to HHSC approval, to correct and resolve a deficiency or breach of the Contract;

HHSC's pursuit or non-pursuit of an operational remedy does not constitute a waiver of any other remedy that HHSC may have at law or equity; excuse Contractor's prior substandard performance, relieve

Contractor of its duty to comply with performance standards, or prohibit HHSC from assessing additional operational remedies or pursuing other appropriate remedies for continued substandard performance.

HHSC will provide notice to Contractor of the imposition of an operational remedy in accordance with this section, with the exception of accelerated monitoring, which may be unannounced. HHSC may require Contractor to file a written response as part of the operational remedy approach.

10.03 Equitable Remedies

Contractor acknowledges that if, Contractor breaches, attempts, or threatens to breach, any obligation under the Contract, the State will be irreparably harmed. In such a circumstance, the State may proceed directly to court notwithstanding any other provision of the Contract. If a court of competent jurisdiction finds that Contractor breached, attempted, or threatened to breach any such obligations, Contractor will not oppose the entry of an order compelling performance by Contractor and restraining it from any further breaches, attempts, or threats of breach without a further finding of irreparable injury or other conditions to injunctive relief.

10.04 Continuing Duty to Perform

Neither the occurrence of an event constituting an alleged breach of contract, the pending status of any claim for breach of contract, nor the application of an operational remedy, is grounds for the suspension of performance, in whole or in part, by Contractor of the WSD or any duty or obligation with respect to the Contract.

ARTICLE XI. DAMAGES

11.01 Availability and Assessment

HHSC will be entitled to actual, direct, indirect, incidental, special, and consequential damages resulting from Contractor's failure to comply with any of the terms of the Contract. 11.02 Specific Items of Liability

Contractor bears all risk of loss or damage due to defects in the WSD, unfitness or obsolescence of the WSD, or the negligence or intentional misconduct of Contractor or Contractor Agents. Contractor will ship all equipment and Software purchased and Third Party Software licensed under the Contract, freight prepaid, FOB HHSC's destination. The method of shipment will be consistent with the nature of the items shipped and applicable hazards of transportation to such items. Regardless of FOB point, Contractor bears

all risks of loss, damage, or destruction of the WSD, in whole or in part, under the Contract that occurs prior to acceptance by HHSC. After acceptance by HHSC, the risk of loss or damage will be borne by HHSC; however, Contractor remains liable for loss or damage attributable to Contractor's fault or negligence.

Contractor will protect HHSC's real and personal property from damage arising from Contractor or Contractor Agents performance of the Contract, and Contractor will be responsible for any loss, destruction, or damage to HHSC's property that results from or is caused by Contractor or Contractor Agents' negligent or wrongful acts or omissions. Upon the loss of, destruction of, or damage to any property of HHSC, Contractor will notify HHSC thereof and, subject to direction from HHSC or its designee, will take all reasonable steps to protect that property from further damage. Contractor agrees, and will require Contractor Agents, to observe safety measures and proper operating procedures at HHSC sites at all times. Contractor will immediately report to the HHSC any special defect or an unsafe condition it encounters or otherwise learns about.

IN COORDINATION WITH THE INDEMNITY PROVISIONS CONTAINED IN THE VUTC, CONTRACTOR WILL BE SOLELY RESPONSIBLE FOR ALL COSTS INCURRED THAT ARE ASSOCIATED WITH INDEMNIFYING THE STATE OF TEXAS OR HHSC WITH RESPECT TO INTELLECTUAL, REAL AND PERSONAL PROPERTY. ADDITIONALLY, HHSC RESERVES THE RIGHT TO APPROVE COUNSEL SELECTED BY CONTRACTOR TO DEFEND HHSC OR THE STATE OF TEXAS AS REQUIRED UNDER THIS SECTION.

12.02 **Turnover Assistance**

Contractor agrees that this obligation survives the termination, regardless of whether for cause or convenience, or the expiration of the Contract and remains in effect until completed to the satisfaction of HHSC.

ARTICLE XIII. ADDITIONAL LICENSE AND OWNERSHIP PROVISIONS

13.01 HHSC Additional Rights

HHSC will have ownership and unlimited rights to use, disclose, duplicate, or publish all information and data developed, derived, documented, or furnished by Contractor under or resulting from the Contract. Terms in any licenses for Third Party Software will be consistent with the requirements of this section. Prior to utilizing any Third Party Software product not identified in the Solicitation Response, Contractor will provide HHSC copies of the license agreement from the licensor of the Third Party Software to allow HHSC to, in its discretion, object to the license agreement that must, at a minimum, provide HHSC with necessary rights consistent with the short and long-term goals of the Contract. Contractor will assign to HHSC all licenses for the Third Party Software as necessary to carry out the intent of this section.

Contractor will, during the Contract, maintain any and all Third Party Software at their most current version or no more than one version back from the most current version. However, Contractor will not maintain any Third Party Software versions, including one version back, if notified by HHSC that any such version would prevent HHSC from using any functions, in whole or in part, of HHSC systems or would cause deficiencies in HHSC systems.

13.03 Software and Ownership Rights.

In accordance with 45 C.F.R. Part 95.617, all appropriate federal agencies will have a royalty-free, nonexclusive, and irrevocable license to reproduce, publish, translate, or otherwise use, and to authorize others to use for government purposes all WSD, materials, Custom Software and modifications thereof, source code, associated documentation designed, developed, or installed with Federal Financial Participation under the Contract, including but not limited to those materials covered by copyright.

Contractor will, and require Contractor Agents, to establish safeguards to prohibit Contract Agents from using their positions for a purpose that constitutes or presents the appearance of personal or organizational Conflict of Interest, or for personal gain. Contractor and Contractor Agents will operate with complete independence and objectivity without actual, potential or apparent Conflict of Interest with respect to the activities conducted under the Contract.

Contractor agrees that, if after Contractor's execution of the Contract, Contractor discovers or is made aware of a Conflict of Interest, Contractor will immediately and fully disclose such interest in writing to HHSC. In addition, Contractor will promptly and fully disclose any relationship that might be perceived or represented as a conflict after its discovery by Contractor or by HHSC as a potential conflict. HHSC reserves the right to make a final determination regarding the existence of Conflicts of Interest, and Contractor agrees to abide by HHSC's decision.

If HHSC determines that Contractor was aware of a Conflict of Interest and did not disclose the conflict to HHSC, such nondisclosure will be considered a material breach of the Contract. Furthermore, such breach may be submitted to the Office of the Attorney General, Texas Ethics Commission, or appropriate State or federal law enforcement officials for further action.

(A) CONTRACTOR acknowledges and agrees that HHS may suffer irreparable injury if CONTRACTOR or its Subcontractor fails to comply with any of the terms of this DUA with respect to the Confidential Information or a provision of HIPAA or other laws or regulations applicable to Confidential Information.

(B) CONTRACTOR further agrees that monetary damages may be inadequate to compensate HHS for CONTRACTOR's or its Subcontractor's failure to comply. Accordingly, CONTRACTOR agrees that HHS will, in addition to any other remedies available to it at law or in equity, be entitled to seek injunctive relief without posting a bond and without the necessity of demonstrating actual damages, to enforce the terms of this DUA.

Section 6.07 *Indemnification*

CONTRACTOR will indemnify, defend and hold harmless HHS and its respective Executive Commissioner, employees, Subcontractors, agents (including other state agencies acting on behalf of HHS) or other members of its Workforce (each of the foregoing hereinafter referred to as "Indemnified Party") against all actual and direct losses suffered by the Indemnified Party and all liability to third parties arising from or in connection with any breach of this DUA or from any acts or omissions related to this DUA by CONTRACTOR or its employees, directors, officers, Subcontractors, or agents or other members of its Workforce. The duty to indemnify, defend and hold harmless is independent of the duty to insure and continues to apply even in the event insurance coverage required, if any, in the DUA or Base Contract is denied, or coverage rights are reserved by any insurance carrier. Upon demand, CONTRACTOR will reimburse HHS for any and all losses, liabilities, lost profits, fines, penalties, costs or expenses (including reasonable attorneys' fees) which may for any reason be imposed upon any Indemnified Party by reason of any suit, claim, action, proceeding or demand by any third party to the extent caused by and which results from the CONTRACTOR's failure to meet any of its obligations under this DUA. CONTRACTOR's obligation to defend, indemnify and hold harmless any Indemnified Party will survive the expiration or termination of this DUA.

Section 6.08 *Insurance*

(A) In addition to any insurance required in the Base Contract, at HHS's option, HHS may require CONTRACTOR to maintain, at its expense, the special and/or custom first- and third-party

insurance coverages, including without limitation data breach, cyber liability, crime theft and notification expense coverages, with policy limits sufficient to cover any liability arising under this DUA, naming the State of Texas, acting through HHS, as an additional named insured and loss payee, with primary and non-contributory status, with required insurance coverage, by the Effective Date, or as required by HHS.

(B) CONTRACTOR will provide HHS with written proof that required insurance coverage is in effect, at the request of HHS.

Section 6.09 *Fees and Costs*

Except as otherwise specified in this DUA or the Base Contract, including but not limited to requirements to insure and/or indemnify HHS, if any legal action or other proceeding is brought for the enforcement of this DUA, or because of an alleged dispute, contract violation, Event, Breach, default, misrepresentation, or injunctive action, in connection with any of the provisions of this DUA, each party will bear their own legal expenses and the other cost incurred in that action or proceeding.

Section 6.10 *Entirety of the Contract*

This Data Use Agreement is incorporated by reference into the Base Contract and, together with the Base Contract, constitutes the entire agreement between the parties. No change, waiver, or discharge of obligations arising under those documents will be valid unless in writing and executed by the party against whom such change, waiver, or discharge is sought to be enforced.

Section 6.11 *Automatic Amendment and Interpretation*

Upon the effective date of any amendment or issuance of additional regulations to HIPAA, or any other law applicable to Confidential Information, this DUA will automatically be amended so that the obligations imposed on HHS and/or CONTRACTOR remain in compliance with such requirements. Any ambiguity in this DUA will be resolved in favor of a meaning that permits HHS and CONTRACTOR to comply with HIPAA or any other law applicable to Confidential Information.
